

ROCKET R1

Cycling's international governing body, the UCI, calls it an unfair advantage so you won't see Lance on one anytime soon. However, if you are a USCF racer or an aggressive rider looking for the competitive edge, the Rocket R1 delivers. **Bicycling Magazine** said to buy it if "...you're performance-oriented, but want speed AND comfort." This is an exceptional climbing, sprinting, cornering and aerodynamic frame that actually enhances comfort at the same time.

About our frame sizes: Because of the top tube and seat tube adjustability inherent in our designs, we size our frames using ranges. *Measurements taken with Selle Italia Flite saddle mounted full back for maximum height and full forward for minimum height. †Optional Rocket Beam Seat Riser accessory allows additional height increase of 4cm.
