

B I A N C H I

SUPER GRIZZLY

Tange MTB racing frame combined with the Shimano Deore XT SIS component group are just some of the features that set this bike apart. Other features include Chrome-moly racing bar and pulley stem, IRC X-1 Pro tires, Araya RM-20 hard anodized rims and 300mm seat post.

GRIZZLY

This bicycle uses the same race-proven frame geometry as the Super Grizzly with Shimano's Deore component group and MKS MT-Lite pedals. Chrome-moly racing bar, Chrome-moly pulley stem, IRC X-1 Pro tires and Araya RM-20 rims add the final touches.

FORTE

The Forte introduces the Shimano Exage SIS Mountain group with front index shifting and Bio-pace chainrings. Frame features include Chrome-moly oversized tubing, forged forkends, and Chrome-moly unicrown fork.

ALANTE

Chrome-moly oversized tubing and unicrown fork lay the framework for the Alante. Complete with Araya alloy rims, front quick release hub, Suntour Accushift derailleurs, Chrome-moly bars and rear U-Brake.

BROADWAY

Araya alloy rims with front quick release hub, Suntour Accushift derailleurs, cantilever brakes and a fully lugged frameset with water bottle mounts, and rack mounts are just some of the special features.

Axis

Tange double-buttressed Chromoly tubing in a "cut down" SuperSet design. Special features include Suntour XC-9010GX/XC-7000GX Accushift derailleurs, barcon Accushift levers, Dirt Drop bars with pulley stem, Araya SS-45 hard anodized rims and IRC Crosscountry tires.
