never a bad time to ride

2012 BIKE CATALOG

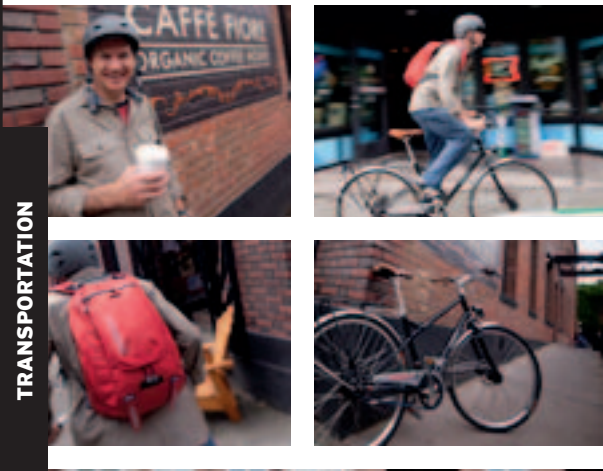

never a bad time to ride

Remember when your bike was the first thing you thought of when you woke up in the morning? And the last thing you dreamt of before bed? Welcome back to your first love. Here at Novara, we make bikes that are so much fun to ride, you'll wish you had a few more errands to run, miles to log or a longer day on the trail. You might not have from dawn 'til dusk to feel the freedom of two wheels, but the time you spend on your Novara will make the rest of your day go a little faster. Especially when you know your two-wheeled freedom machine is waiting.

Mainline Collection

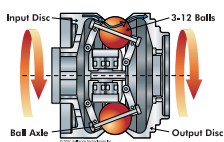

Run errands, commute to work and revel in “less car, more life” on Mainline bikes. Smooth-riding steel frames and plush seats deliver you in comfort. No-hassle internal hubs, fenders and rear racks make you want to go back. Oh, and you can leave your spandex at home.

GOTHAM

Imagine a bike with no chain, no grease, and no grind or jerks when shifting. That's Novara Gotham. A Gates belt drive paired with a NuVinci N360™ Continuously Variable Planetary (CVP) transmission powers an elegant, double-butted chromoly frame. A leather seat, swept-back handlebar and cork grips complement the cockpit. The result? A silent, effortless glide to the right gear with just a subtle wrist turn. No clacking or temperamental shifting mechanism interrupts the flow of this roll, possibly creating the quietest, most refined ride on city streets.

- Commuter-ready with Shimano Alfine dynamo front hub, Basta Nano headlight and rack-mounted taillight
- Semi step-through design for easy on-and-off
- Polished alloy fenders, chainguard and rear rack
- FSA eccentric bottom bracket allows for simple belt tensioning

- NuVinci N360 CVP hub uses rotating, tilting balls instead of gears to transfer pedal torque from rider to machine

- Gates carbon fiber/kevlar belt (instead of a chain) means smooth, quiet shifts and no lube needed

FUSION

Fuse style with function, and well, this do-it-all ride just named itself. Its steel frame absorbs more road chatter than aluminum for a smoother ride. It's loaded with commute-ready accessories like a rack, fenders, lights and a kickstand. Paired with a super-clean, 8-speed Shimano drivetrain and all-weather disc brakes, it's pretty much the epitome of two-wheeled goodness.

- Sturdy 4130 chromoly frame and fork
- Shimano internally geared 8-speed Alfine drivetrain
- Hub-powered Basta headlight; motion-/photo-sensitive battery-powered taillight
- All-weather Shimano CenterLock mechanical disc brakes
- Puncture-resistant, reflective 700x35c tires
- Swept-back Novara Mainline handlebar for a comfortable, upright riding position

TRANSFER

Loaded and poised for fun, this ready-to-roll commuter offers a stout, easy-mounting chromoly steel frame, no-fuss internal-gear shifting and a front-hub-powered headlight. Top it off with cork handgrips, a plush saddle and a comfortable, upright ride, and you'll find even more reasons to leave the car at home.

- Sturdy 4130 chromoly frame and fork
- Shimano internally geared 7-speed drivetrain
- Hub-powered Basta headlight; motion-/photo-sensitive battery-powered taillight
- Shimano linear-pull brakes
- Puncture-resistant, reflective 700x35c tires
- Swept-back Novara Mainline handlebar gives a comfortable, upright riding position

TRANSFER ONE

For those who love the beauty of clean lines, the laid-back cruising style of a single speed and the intuitive ease of a coaster brake, the Transfer One delivers. The One sports the same silky ride and easygoing style of its more ambitious relative, the Transfer—it's just in a little less of a hurry.

- Chromoly semi step-through frame
- Coaster brake and single speed simplifies maintenance
- Full-coverage alloy fenders and chainguard protect rider from dirt, water and grease
- Swept-back Novara Mainline handlebar for a comfortable, upright riding position
- Color-matched fenders, chainguard and rack
- Powder-coated rims add a spicy splash of color

BIG BUZZ

A formidable bike that's nimble enough to tame traffic and tough enough to roll where road crews have yet to tread. A sturdy alloy frame, easy-spinning 27-speed drivetrain and flat handlebar let riders go with the flow. And sometimes create it. The sure-stopping disc brakes help keep 'em out of jams.

- Sturdy 6061 aluminum alloy frame with pinpoint fork
- SRAM X5/Shimano Alivio 27-speed drivetrain gives you hill-climbing power and speed, too
- Tektro Auriga Pro Mineral oil hydraulic disc brakes
- Kenda K184 700X32 tires with K-Shield flat protection and reflective sidewalls

FOR MORE INFO
VISIT US AT
NOVARABIKE.COM

Mainline Collection

If you love the smell of wet pavement and fresh asphalt, and search for gritty city streets to explore and conquer, check out our urban fleet. Strong and nimble, these street-smart rides will get you where you're going, even if it takes you a while (and a few detours) to get there.

BUZZ

Roll through campus, commute to work or ditch the car for a weekend of fun—this is the bike that does it all and keeps you coming back for more. A smooth-riding, sturdy steel frame, burly tires, swept-back handlebar and 24 speeds make even the most mundane errand run feel like a joyride.

- Double-butt 4130 chromoly frame and fork
- SRAM Via trigger shifters and 24-speed drivetrain supply speed on the flats, easy climbing power for hills
- SRAM Via linear-pull brakes
- Can easily upgrade to disc brakes, thanks to frame mounts and compatible hubs

BUZZ ONE

Take the Buzz and dial it in for laid-back urban fun, and you've got the Buzz One. With a no-maintenance single speed/fixed-gear hub and a swept-back handlebar for comfortable riding position, this streamlined bike will make you want to take the long way home every time. Powder coating offers better protection from dings and rain than a painted frame.

- Sturdy 4130 chromoly frame and fork
- Single-speed drivetrain with flip-flop rear hub, giving option to ride bike with a fixed-gear
- Dependable Tektro linear-pull brakes
- Puncture-resistant 700x40c Kenda K-1024 tires

For seekers of the open road and those who consider a stretch of lonely flats a perfect playground, say hello to your next personal best. The Carema Pro and Strada are built for speed, performance and bragging rights. Full-stop. And the brakes are pretty solid, too.

STRADA | CAREMA PRO

If you crave the whirr of tires on pavement and fresh air flowing through your helmet vents, this versatile bike—Men's Strada/ Women's Carema Pro—will feed your roadie needs. Perfect for club rides, charity rides and commuting, the 2012 version also sports a stronger, stiffer alloy frame, a tapered head tube and carbon fiber fork, and a simpler-to-maintain, compact 2-ring crankset.

- Butted 6061 aluminum frame with tapered head tube offers excellent acceleration, handling and strength
- Carbon fiber fork with tapered (1 1/4" to 1 1/8") 1-piece alloy crown steerer tube helps dampen vibration and reduce weight
- Shimano 105 shifters/rear derailleur
- Tiagra 10-speed front derailleur/12-30 cassette; Wippermann 10-speed chain
- Shimano R650 long-reach brakeset provides ample clearance for fenders

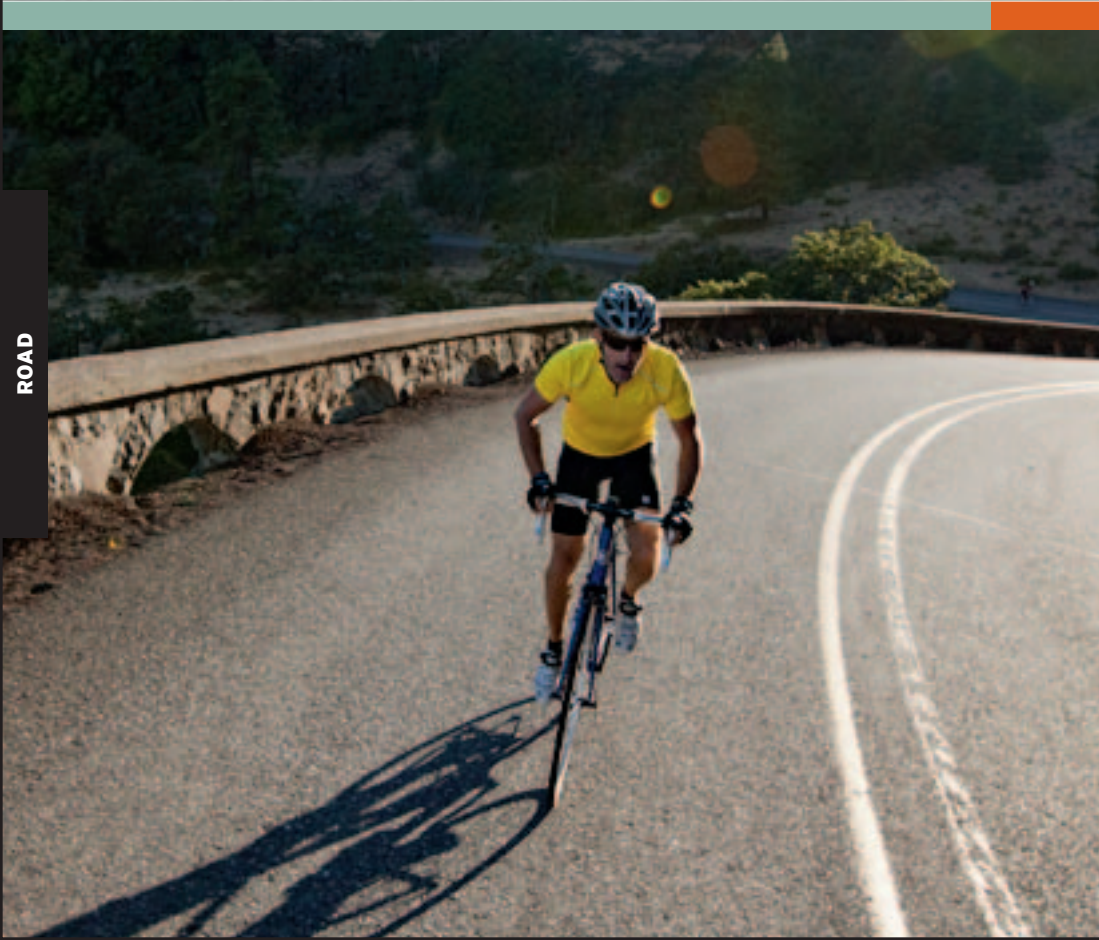

REI HAS CERTIFIED
BIKE TECHS TO KEEP YOUR
NOVARA IN TIP TOP SHAPE

Road

When the road calls, don't just listen. Get on your bike and go. Sport-road geometry, long-reach brakes and enough gears to power up the switchbacks allow roadies to test their limits, or just get to work on time. Novara sport-road bikes are made for speedy, nimble and fun jaunts across state lines or across town.

ROAD

DIVANO

Built for both fitness and recreational rides, the Divano handles a century as well as club rides and commuting. The secret is sport geometry, which provides a more relaxed riding stance and stable handling while still cutting a sleek slipstream to enhance aerodynamic efficiency.

- 6061 aluminum frame; tapered head tube
- Carbon fiber fork with a tapered, one-piece alloy crown steerer tube helps dampen vibration and reduce weight
- Shimano Sora drivetrain

CAREMA

Centuries, club rides and commuting are the masterful domain of the Carema. Featuring the same high-quality components and build as the Divano, the Carema features cockpit geometry designed specifically for women's dimensions. The lightweight aluminum frame gives you nimble handling, quick acceleration and pedaling efficiency.

- Light and quick 6061 aluminum frame with tapered head tube
- Carbon fiber fork with tapered, 1-piece alloy crown steerer tube
- Shimano Sora drivetrain
- FSA Vero triple crankset (50/39/30) with Powerspline bottom bracket
- Tektro long-reach brakes provide ample clearance for fenders
- Freedom Racine Sport 700x25c tires

EXPRESS

Commute to work or take a weekend ride—the responsive Express has sport-road geometry and a flat bar for a relaxed pedaling position. A lightweight carbon fork, 27-speed Shimano drivetrain and streamlined look help it maintain cruising speed mile after mile. And look good doing it.

- Women-specific butted 6061 aluminum frame with tapered head tube
- Flat bar with ergo bar ends offers multiple hand positions for comfort
- Carbon fiber fork with a tapered, one-piece alloy crown steerer tube helps dampen vibration and reduce weight
- Shimano Deore/Alivio 27-speed drivetrain with Shimano Alivio crankset lets you spin easily up hills, hit high speed on the flats
- Tektro long-reach brakes provide ample room for fenders
- Selle San Marco Ischia saddle

EXPRESS XX

This women-specific, versatile bike takes you to work and back, then performs beautifully on a weekend ride. Its sport-road geometry and flat bar keep your pedaling position relaxed; the lightweight carbon fork and 27-speed Shimano drivetrain help you maintain cruising speed.

- Women-specific butted 6061 aluminum frame with tapered head tube
- Flat bar with ergo bar ends offers multiple hand positions for comfort
- Carbon fiber fork with a tapered, one-piece alloy crown steerer tube
- Shimano Deore/Alivio 27-speed drivetrain with Shimano Alivio crankset
- Tektro long-reach brakes provide ample room for fenders
- Selle San Marco Ischia saddle

FORZA | FIONA

If a joyride gets a bit jiggly, soak up the bumps of trails and gravel roads with the front suspension of the Forza and Fiona. This comfort bike also sports 24 speeds for easy hill climbing and flat-path zooming.

- Strong and light 6061 aluminum frame
- Suspension fork cushions the bumps of uneven roads
- Acera Rapidfire® shifters
- Tektro linear-pull brakes

Hybrid/Comfort

Novara's Hybrid/Comfort bikes are so easy and effortless to ride, you'll want to keep on gliding around the next corner. The relaxed riding position, cushioned seats, plush tires, lightweight aluminum frames and no-hassle shifting just might turn your weekend strolls into daily rolls.

CORSA | MIA

This responsive, upright cruiser—Men's Corsa, Women's Mia—is perfect for a run to the corner market or the neighboring campground. The upright handlebar provides a relaxed upright ride, and both bikes are designed to be supremely easy to get on and off.

- Strong, lightweight 6061 aluminum frame
- Dependable drivetrain with twist shifters and 21 gears
- Linear-pull brakes control speed
- Comfortable upright handlebar

JAUNT | JAUNT XX

This comfort's bike's "best foot forward" design features geometry that lets riders put their feet down at a stop. It also allows for climbing hills without sliding off the saddle! Twenty-one speeds and twist shifters take you where you want to go. Jaunt xx has a narrower handlebar, and its overall dimensions are scaled to fit a woman's proportions.

- Best Foot Forward geometry for easy cruising
- Sturdy and stable 6061 aluminum frame
- 21 speeds take you where you want to go
- Tektro linear-pull brakes

GET EXPERT ADVICE ON EVERYTHING CYCLING AT NOVARABIKE.COM

MOUNTAIN

Mountain

Welcome to mud, sweat and tearing it up on the trail. Novara's dirt-loving 29ers ride like cushioned armchairs and swallow obstacles whole. When washboards are par for the course and logs and roots regularly litter the singletrack, the 29ers' stout frames, big wheels and plush suspensions keep you upright and grinning.

INTREPID 29

Intrepid's 29" wheels turn once-scary stumps and jumps into sweet adventures. A butted steel frame and cushy suspension fork make this big roller all-day dreamy. A new, compact, 20-speed drivetrain simplifies shifting and shaves weight while delivering the gear range needed for off-road adventuring. Disc brakes stop with authority.

- Reynolds 520 butted chromoly frame RockShox Recon Gold fork with 80mm travel and lockout
- SRAM X7/X9 2x10 drivetrain w/20 gears and Shimano M550 hydraulic disc brakes

PONDEROSA 29

Pondo's mondo wheels, remote lockout for the 80mm suspension fork and 27 speeds makes it easy for riders to adjust to the flow (and mega obstacles) of mountain trails. Shimano disc brakes regulate the pace and ensure full stopping power, even in muddy and wet conditions.

- Kinesis butted aluminum frame with shaped tubes
- SR Suntour XCR RL 29er fork offers 80mm of travel, remote lockout and weight savings
- Shimano drivetrain delivers reliable performance
- Shimano Deore mechanical disc brakes
- Lightweight WTB Nano 29x2.1" tires offer 60TPI casing, folding bead and fast-rolling traction
- WTB Pure V Race saddle

MATADOR 29

When it's time to take on big, beastly singletrack, reach for the Matador. This large-wheeled fun machine features a sturdy frame and 80mm fork to keep you in control in the rough. 27 speeds mean easy climbs and fast descents. Mechanical disc brakes are reliable stoppers.

- Kinesis butted aluminum frame with shaped tubes
- SR Suntour XCR MLO 29er fork offers 80mm of travel
- SRAM drivetrain with X5 shifters
- Avid BB5: mechanical disc brakes you can count on
- Lightweight WTB Nano 29x2.1" tires roll right over big stuff
- WTB Pure V Sport saddle

FIND YOUR PERFECT RIDE
AT OVER 100 REI STORES
NATIONWIDE

TORERO 29

This value-loaded, nimble 29er eats snaky singletrack for breakfast (and lunch and dinner). The Torero features an 80mm suspension fork for bumpy rocks and roots, 27 gears to tackle steep hills and disc brakes for navigating those tricky switchbacks.

- 6061 aluminum frame
- RST Blaze suspension fork with 80mm of travel and lockout
- Shimano Acera 9-speed drivetrain with Allivio rear derailleur
- Shimano mechanical disc brakes and levers
- WTB Nanoraptor 29x2.1" tires
- Weinmann double-wall rims to handle bumpy, uneven surfaces
- WTB Pure V Sport saddle

BONITA

The women-specific Bonita boasts nimble handling—inspiring more saddle time and longer runs. A cushy 80mm fork with lockout, 27 gears and disc brakes deliver dependable fun. And, a new, updated frame incorporates the downtube "S" bend found on Novara's big-rolling 29ers to add stiffness at critical frame junctures.

- 6061 aluminum frame is designed to work best with womens' dimensions
- RST Blaze suspension fork with 80mm of travel and lockout
- Shimano Acera/Alivio 27-speed drivetrain
- Shimano mechanical disc brakes and levers
- WTB Nanoraptor 29x2.1" tires
- Weinmann double-wall rims to handle bumpy, uneven surfaces
- WTB Speed She Sport SE saddle

Mountain

Trails, city streets or bike paths, these versatile bikes handle almost anything that comes their way. With sturdy, lightweight aluminum frames, plush suspension forks and versatile

tires, these rides navigate root-ridden trails or gravel paths like they were born for it. Oh, and on their off-days, they also haul groceries and books like champs.

PORTAL

Ride trails or roll across campus on our 21-speed Portal. A sturdy aluminum frame, bump-absorbing suspension fork and versatile tires give you the option to ride trails, city streets or pull a trailer around the neighborhood. An upright position and plush saddle keep you rolling in comfort. Portal is an inviting ride for city/recreational riders who might want to wander off roads to explore.

- Sturdy yet lightweight aluminum frame
- RST Gila suspension fork with 100mm travel
- 7-speed drivetrain with trigger shifters
- Lee Chi linear-pull brakes
- Mounts allow for a disc-brake upgrade
- Kenda 26x1.95" combo tires for a confident ride on pavement, gravel or dirt
- WTB Comfort V Sport saddle

ORDER YOUR FAVORITE NOVARA BIKE ONLINE AND HAVE IT SHIPPED TO YOUR LOCAL REI

PIKA

Explore trails, spin along bike paths or roll across campus with the women-specific, 21-speed Pika. It sports a sturdy aluminum frame, bump-absorbing suspension fork and versatile tires, so it's as comfortable on the trail as it is on city streets. The frame is designed to work optimally with womens' dimensions and delivers a relaxed, upright riding position. The super-plush saddle seals the deal.

- Sturdy yet lightweight women-specific aluminum frame
- RST Gila suspension fork with 80mm travel
- 7-speed drivetrain with trigger shifters
- Lee Chi linear-pull brakes
- Mounts allow for a disc-brake upgrade
- Kenda 26x1.95" combo tires for a confident ride on pavement, gravel or dirt
- WTB Leisure She Comp saddle

GET SWEET NOVARA CLOTHING AND GEAR AT NOVARABIKE.COM

Touring

Whether your journeys are measured in seasons or days, Novara's touring bikes help you focus on the path well (or hardly) traveled. Rugged, bump-absorbing steel frames and forks; long, stable wheelbases; puncture-resistant tires; and dependable brakes keep you rolling along smoothly—for as long as your day will let you.

RANDONEE

Built for the long haul. A smooth-riding steel frame and fork and fast-rolling, sturdy tires and rims spin through days on the road while keeping you comfortable. A new 10-speed touring drivetrain highlights the 2012 model. It provides plenty of gear range to climb mountain passes and descend into deep valleys while reducing bike weight and simplifying maintenance.

- Reynolds 520 double-butted chromoly frame; lugged chromoly touring fork
- Tektro mini V-brakes and levers

VERITA

The Verita pays homage to the classic sport roadster with a sturdy Reynolds steel frame, and a smooth SRAM Apex component group. Its 20-speed drivetrain offers a gear range comparable to a triple in a lightweight, compact double. It's a feature that translates to easy spinning on light tours, commutes and long weekend rides.

- Butted Reynolds 520 steel frame and fork
- New SRAM Apex 20-speed drivetrain
- FSA Vero compact 50/34 crankset
- Puncture-resistant Vittoria Randonneur tires
- Leather saddle and synthetic leather handlebar tape
- Shimano long-reach brakes

SAFARI

Blaze a new trail while hauling it all on your bike—the Safari is ideal for barely-there roads and heavy loads. A mountain-bike/touring-machine hybrid, it features a strong chromoly frame and fork and beefy rims and tires. Features Shimano V-brakes with disc-brake compatibility.

- Reynolds 520 chromoly frame and chromoly fork
- Shimano Deore 27-speed drivetrain with Shimano crankset
- SRAM Attack twist shifters
- Shimano Deore V-brakes; upgradeable to disc brakes
- Includes a rear rack to mount panniers (sold separately)
- For a precise fit, S has 26" wheels; M, L and XL have 700c wheels

PULSE

Young roadies will love this efficient, speedy ride in a kid-size design. Smooth tires, drop handlebar and a Shimano ST1 drivetrain keep 'em rolling.

- 6061 aluminum frame
- Shimano 16-speed drivetrain

PONDEROSA 24

Built for bigger kids and smaller adults, this lightweight trail rider comes fully equipped with 21 gears for exploring the hills and dales of the 'hood.

- 6061 aluminum frame; mounts for disc-brake options
- Spinner Grind 1 fork (63mm travel)

Kids

Give the li'l spinners a reason to grin with a sturdy, fun Novara kid's bike. Built kid-tough, they can be passed down to a younger child when the first rider outgrows their bike. Eye-catching colors and graphics, rugged components and kid-friendly frames guarantee years of two-wheeled fun.

AFTERBURNER

Novara's pedal-along trailer for kids has a sturdy steel frame and an easy-to-use hitch that attaches to an adult bike. Adjustable seat and handlebar help it fit kids of varying sizes, while a single-speed drivetrain keeps things simple for little riders.

- Steel frame with tool-free folding mechanism
- Hitch attaches to a variety of bikes
- Single-speed simplifies pedaling
- Adjustable seat and handlebar for kids of all sizes
