didn't just come to ride-you came to win. No compromises here. 100% 4130 superlight aircraft
 without. Precision Fusion 32 hole. Sealed-bearing wheelset. Awesome Odyssey Pitbull braking.
 aluminum XL stem. Haro kneesaver pro-style bars. Fusion heat-treated CRMO seatpost and
 light racing saddle and TwinTorc seatpost clamp. Cocky neon fade paint and race graphics.
 guaranteed to attract trophies like a magnet.

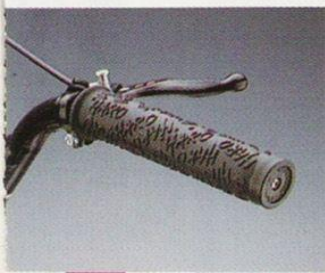

F R E E S T Y L E

What'll everybody else's freestyle bikes look like next year? Just what you want. If the bike companies were content to rehash their last year's decals to put on their friends. Rick Moliterno. Danny Meng. Matt Hoffman. The result? A bike designed to go wherever your riding may lead you. Flatland. Aerial. The ramps. In the air and in the hands of the best freestyle riders.

S P O R T

The freestyle dream bike you can stop dreaming about. All new and completely redesigned for 1991. 4130 chromoly mainframe integrated sprocket guard. Ultra-thick 3.5mm dropouts front/rear. Chainstay peg bosses accept thread-in pegs with replaceable plastic sleeves. Contoured plastic bashguard for fast, controlled grinds on coping, lips, railings, whatever. Tapered chromoly forks with peg bosses. Brazed-on cable guides, wrap-around head gusset, and new seat tube wing gusset. Available with your choice of alloy 48's or 5-spoke ACS mags. The '91 Sport: ready to rage out of the box.

Just like this year's Haro's. You see, imitation is easy. Innovation is not. And while other
 out on "this year's" bikes, Haro had a different plan. We went riding. With a few of our
 t? The most technologically advanced line ever. And if we do say so, the most fun. Bikes
 materials. Streetstyle. The new 91's have credibility where it counts — out in the street. On
 ers in the world. Whenever you're ready — Haro Freestylers. Tomorrow's bikes. Today.

Perfect for the rider who can't decide between race or freestyle, street style or jumper. The Edge is a jack of all
 trades. Offered with either alloy 48's or 5-spoke ACS mags. Odyssey braking front and rear plus Gyro. Fusion Disc
 Drive sprocket and forged alloy stem. Haro's versatile multi-surface tires. Rip, tear, shred on the Edge.

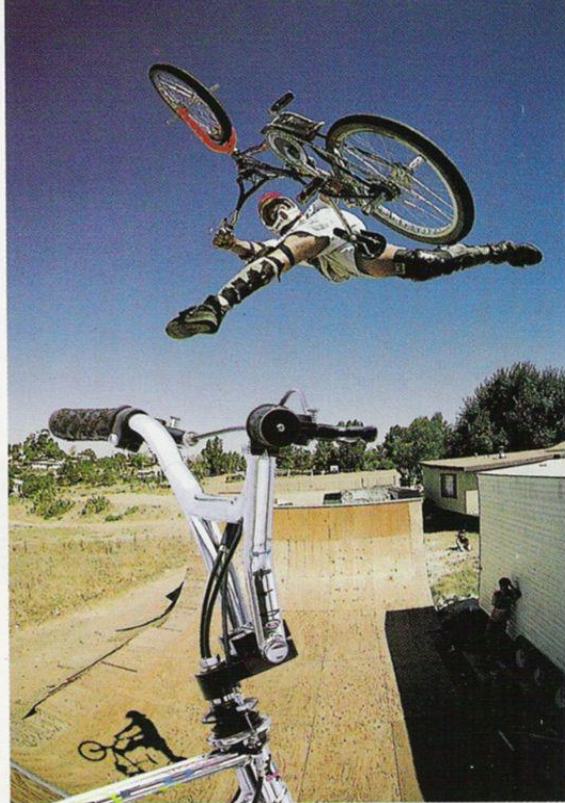

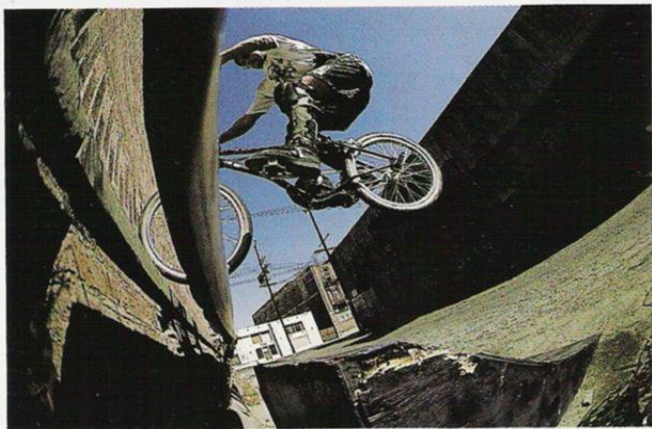

EDGE

AIR MASTER

The wait is over. The bike hard cores have been hearing rumors about is finally here. Classic twin top tube design. Replaceable plastic bash guard for
