

HARO

BIKE CORP.

1995

bmx freestyle juvenile

You're about to get a close look at a line of bikes targeted specifically at the next generation. The Haro generation. They're fearless, they're smart, and they're brand conscious. Although easily misunderstood, they know exactly what they want and so do we. We're Haro. We've been around long enough to understand the youth market and have always made it a point to stay in touch with today's youth. They know us through aggressive advertising, team sponsorship and a reputation for producing innovative, leading edge, high quality products. It's a reputation we've earned. And one we intend to keep. As a dealer, we realize you have a wide selection of brands choose from. Why not choose a brand that stands apart from the rest. One that sets standards rather follow them. Haro...in touch.
