

BMX PRODUCTS

VOL. 6

We are, without a doubt, the luckiest guys to ever turn a sprocket. For more than 25 years, we've been riding the bleeding edge of BMX. Whether it's die-hard racing, vert, dirt, freestyle or flatland, Haro has led the way.

The very best riders in the world have relied on Haro bikes for the confidence to ride on the ragged edge, to stretch the definition of what's rideable. For us it's never been about the number of races won, or contest medals taken. It's always been about meeting the demands of the world's best, giving our pros the tools they need to challenge themselves, to reinvent the sport over and over. We don't count first places and trophies. We go for the absolutes—how high, how fast, how far. Our challenge isn't to build bikes for what our pros are doing now, but for what they're dreaming of doing tomorrow.

Our pros don't just know BMX. They are BMX. Dave Mirra, Ryan Nyquist and Warwick Stevenson aren't just the best—they're legends who shaped the sport, and they're defining its future. What these guys do today will become tomorrow's standards. And they're the ones who are shaping our bikes, refining and honing them the way they grind and sharpen their own skills.

The best riders aren't in it for the money, but for the pure joy of riding. And as rider-owners that's something we're proud to support, because that's how we see ourselves. What drives us isn't the almighty dollar, but the relentless pursuit of the perfect ride. It's what we live for, and the thing we try to build into every Haro. Ride one, and you'll see the difference—we put everything we know into the ride, and it shows.

MIRRA PRO

PROFILE

Dave Mirra and Haro go way back. When he signed his first contract in 1994, Dave was just psyched to be paid for riding his bike. And even though the paychecks are way bigger now and he's recognized around the world as the sport's most accomplished rider, Dave still rides because he likes to, not because he has to. We'd like to think his choice of bikes has had a lot to do with his success, but at least we know it hasn't held him back. Ready to explore your full potential? Ride the bike Dave rides. Haro.

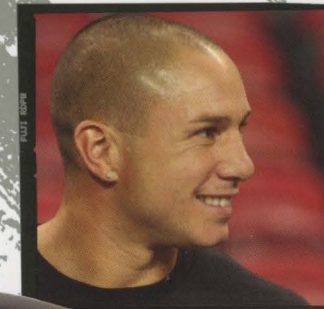

FEATURES:

- '06 Haro Mirra Pro Series Full Crmo Frame, w/ Heat Treated Head Tube
- MID BB Shell & Improved Chain Clearance w/ Lower Chain Stays

NYQUIST PRO

PROFILE

Riding for any other bike company, Ryan Nyquist would be the center of attention. At Haro he shares the spotlight with another fairly decent rider, but he doesn't share his bike. In fact, Ryan has an all new ride this year that's almost as trick as his 65 Lincoln. His bike reflects an understated confidence and a competitive nature that has established him as one of the sport's best all-around riders.

FEATURES:

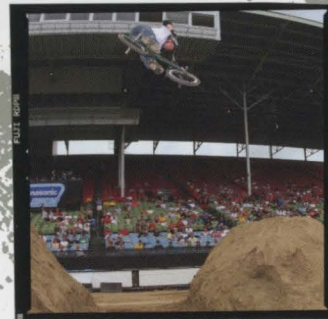

- '06 Nyquist Pro Full Crmo Frame w/ Heat-Treated Head Tube & MID BB Shell
- FSA 1-1/8" Hiddenset Sealed Internal Headset & SST Oryg Rotor w/ DC Amplifier

F-SERIES F3

PROFILE

F is for freestyler, the first bike ever produced by the sport's first rider-owned company. Designed specifically for the kind of riding that twenty years later is now defined as park, street, vert, and flat, these bikes have a legendary heritage that no other bike can match. It shows in the attention to detail, the quality, and the performance built into every F-Series model we make.

FEATURES:

- ▶ F-Series Standard Size 3-Tube Crmo Frame
- ▶ Full Crmo Forks
- ▶ Haro Tubular Crmo 3-Pc 175mm Crankset w/ Hexagonal Spindle
- ▶ Haro Street 7.0" 2.3 Bars w/ New 90 Degree Stem
- ▶ SST Oryg Rotor w/ DC Amplifier
- ▶ Haro Alloy Rims & Hubs w/ 14mm Axles
