COLLECTION

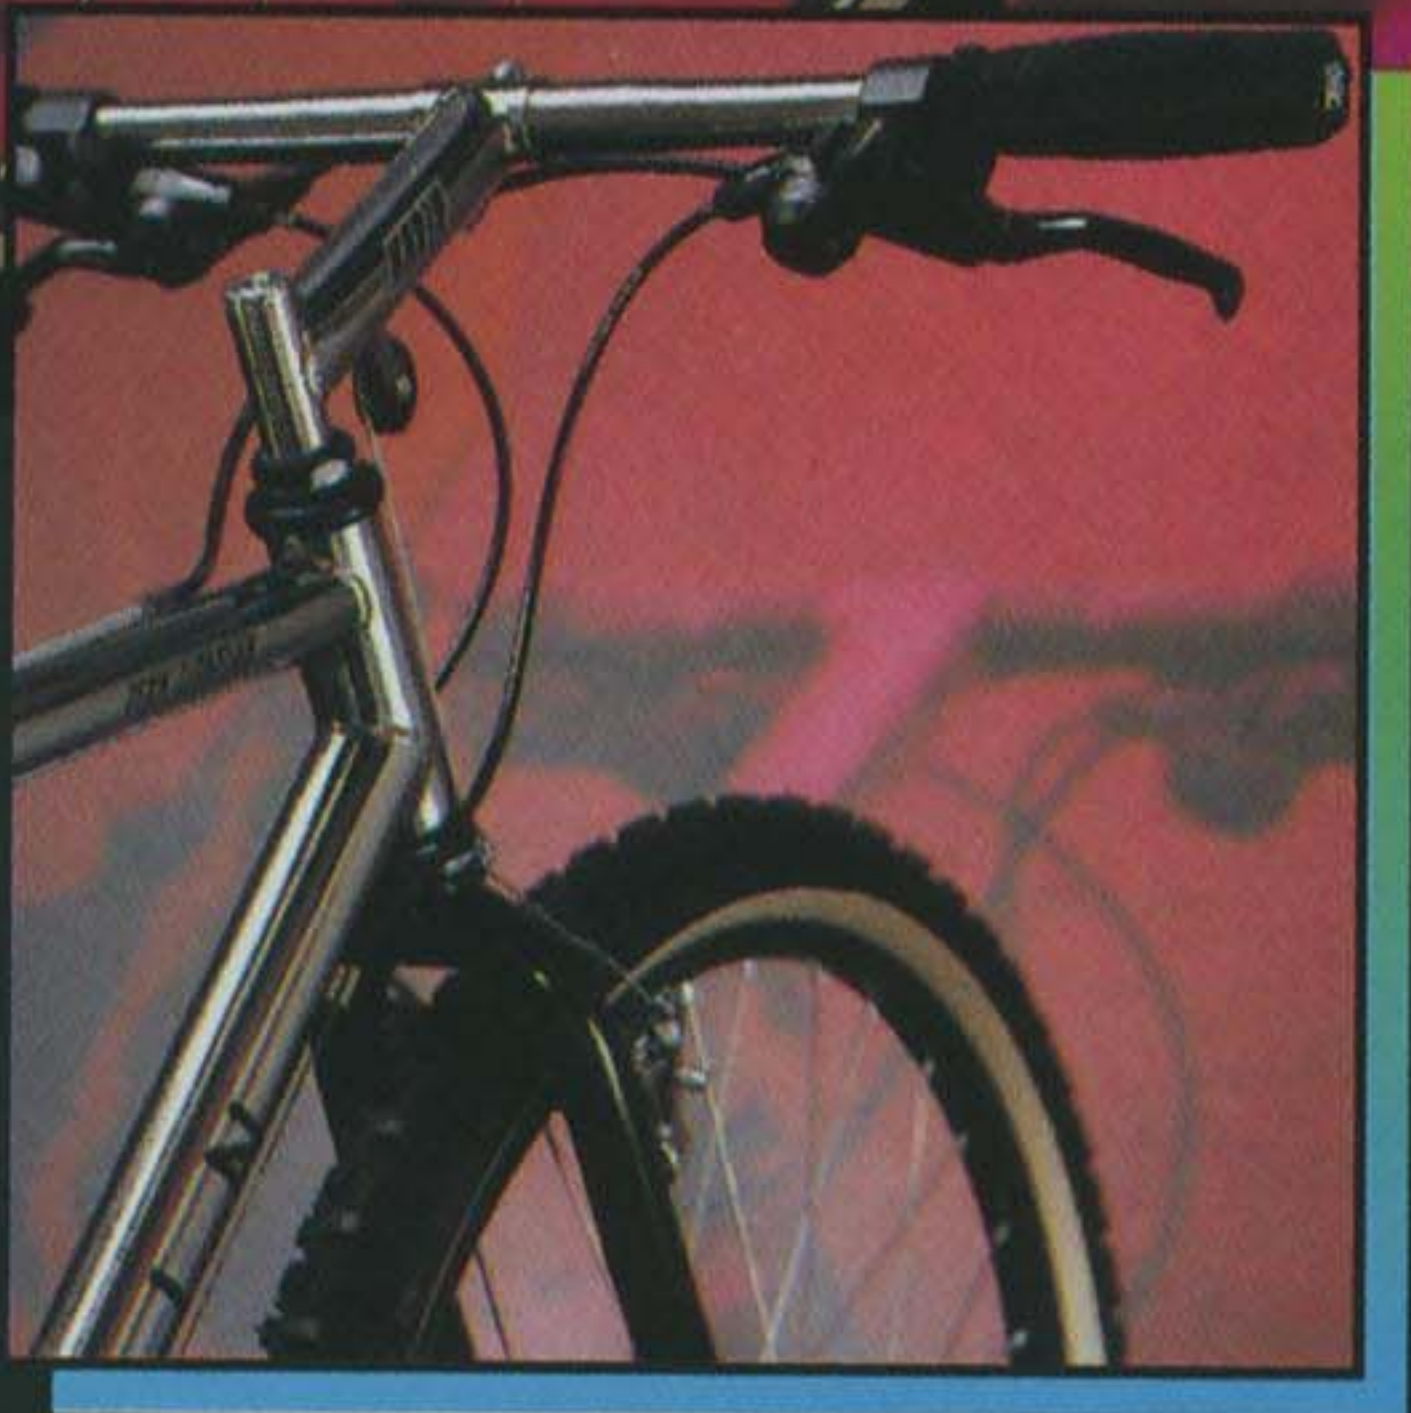

Marin Mountain Bikes is known throughout the world for its innovative designs, commitment to quality, and attention to detail.

With the expertise of our Marin Mountain Bikes Pro Race Team, we were the first to develop and produce an available titanium mountain bike. And working continuously to produce the best mountain bike frames and components, we've created such innovations as a **Sloping Top Tube Frame Design, Performance Oriented Geometry**, and our latest, Marin exclusive, **Constant Diameter Seat and Chain Stays with Marin Investment Cast Rear Dropouts.**

With our absolute dedication to the mountain bike industry you can be sure that you'll always find Marin Mountain Bikes at the front of the pack.

We've done it...we've created the bike you've always dreamed of. When you're ready for only the best, Team Titanium is ready for you. Start with a hand-made 3-2.5 titanium frame that gives you superb durability at half the weight of other frames. Add top-of-the-line Shimano Deore XT components. Lightweight Rockstar (tm) Sierra Kevlar tires. And dozens of other details that make the difference between excellent and extraordinary. Hand-made in the U.S.A. Team Titanium...when you're ready to make your dreams come true.

You don't have to study frame geometry to feel the difference a great design makes. One ride is all it takes! Kelly Burr analyzed a biker's toughest problem--backbreaking hills--and created a design that lays them flat. Team Issue's radically shortened rear end concentrates power and maximizes traction, even when you're up off your seat. The stiffer frame and exclusive "Mono Stay" chain stay design work to level out steep hills. And this year's design uses Tange Prestige tubing to deliver even greater strength with less weight.

When you're ready to leave the pack behind, step up to the Team Marin. This race bike has been hand-crafted with oversized Tange Prestige double-buttressed chromoly tubing. Team Marin features our new rear end design with constant-diameter chromoly chainstays and chromoly seatstays with our own custom computer aided design investment cast dropouts. Shimano Super SLR brake levers provide precision stopping power with a minimum of effort. Plus Shimano XT headset, a Japanese-made Tange fork and top-of-the-line Araya RM 400 wheels. The result: a powerful performance bike made to ride like the wind and stop on a dime.

Wherever you make tracks, Pine Mountain performs like a workhorse with thoroughbred qualities. We've designed this tough high-performance bike for durability, responsiveness and plenty of eye-appeal. The oversized Tange chromoly frame and low-profile brakes handle even the roughest terrain. Shimano Deore DX components deliver smooth performance. An oversized Shimano DX headset adds to rider control whatever the terrain. New rear end design means greater strength, greater stiffness and lighter weight. And the hot neon finish takes first place when it comes to looking cool.

Beating the competition takes both speed and control. Eldridge Grade delivers both. Designed and race-proven in Marin County, the Eldridge features Tange's new oversized tubing with Marin's own constant diameter chromoly seatstays and our own custom computer aided design investment cast dropouts. Upgraded Shimano Deore LX components with Shimano Deore DX brakes and Deore DX brake levers and shifters. Plus custom touches like a 24-tooth small chain ring and oversized Ritchey Logic headset. For super traction on even the toughest terrain, it all moves on the new Rockstar Sierra 2.1 tire, the widest tire we've ever produced.

Check out the details that make this year's Bear Valley the most responsive ever. The sloping top tube design includes full double-butted Tange oversized chromoly tubing. Up front, the long-radius fork with oversized blades means a comfortable ride without sacrificing control. Plus Shimano Exage 400 components, Ritchey Logic headset and Araya's new CV7 alloy rims. A true performance bike, on tough Rockstar dirt tires.

One of six Marin bikes now available in a 14" frame for the smaller rider.

Gear up and go! Where the competition skimps, Palisades Trail delivers. It's loaded with quality details you don't expect on such an affordable mountain bike. Shimano Exage 300 components and STI under-the-bar shifters. Oversized Ritchey Logic headset. Quick-release wheels front and rear. Marin's own constant-diameter chromoly stays and custom CAD investment cast dropouts. Toeclip-compatible pedals. And Pro Combo 2.0 tires with a smooth center ridge for urban streets and an aggressive tread for off-the-road traction. A combination bike that's ready to go almost anywhere. Now available in a 14" frame.

Can't decide on a mountain bike or a road bike? This is the bike for you! Enjoy on-road quickness and comfort, without giving up the thrill of off-road riding. Stinson's innovative technology merges a lightweight road bike frame with mountain bike control and braking, and the comfort of upright handlebars. On-road or off, you'll appreciate the Suntour XCU components and Suntour XCT 7-Speed Express under-the-bar shifters. It all makes Stinson an around-town champ that doesn't have to stop at the city limits.

Catch a hybrid (if you can) and find out what all the fuss is about! Light and sturdy, the Sausalito is a multi-purpose road bike that glides around town with plenty of style, but makes a smooth switch to the trails whenever you're ready. Upright handlebars mean greater safety, comfort and visibility around town. With a full group of Shimano Exage 400 components and lightweight Araya 700C rims, Sausalito stands out among the best of a new breed.

LIMITED EDITION

Shimano 105 clipless pedals.

Marin introduces its first road bike...and sprints right to the front of the pack. This 14-speed Hyperglide-equipped road bike features Shimano 105 components, Modolo Patent Anatomic Bend handlebars and a chromoly tubular stem. The oversized double-buttressed chromoly frames comes with custom forged dropouts and Marin's own Unicrown-style fork. The exclusive design will handle a tire up to 700x28 cm. to survive even the toughest training program. And Shimano 105 clipless pedals add a new level of efficiency to your performance. Every mile you ride, you'll know you chose the best...and you'll appreciate the difference.

Kids are tough riders...and tough customers. They know the difference the right equipment can make. So designing a great kid's bike is much more than just child's play. Building the new Hidden Canyon, we started with quality and never looked back. The super-strong chromoly mainframe and 20" alloy wheels can handle the toughest trails day after day, year after year. Cantilever brakes and Shimano index shifting mean plenty of control. Add it all up and it makes Hidden Canyon the ideal introduction to the wonders of mountain biking.
