Innovations from the classic name in titanium.

We may be small but Moots has always made time for innovation and 2008 is no exception.

Our NEW MootoXz 29er takes all the experience we've gathered over the last decade building the best handling 29ers on the planet and adds in our time tested MARC full suspension system for a true bump-eating monster. On the component side we're very proud to introduce

our NEW Cinch post, a completely new approach to seatpost design featuring independent adjustment of fore-aft and tilt via 5 or 6mm bolts. Clean, light and functional the Cinch post perfectly personifies the Moots design philosophy. With the added option of custom sizing on every bicycle Moots makes we are here to make your bike riding dreams come true.

A full-page photograph of a mountain biker in motion, leaning forward on a trail bike. The rider is wearing a blue and white jersey with 'MOOTS' printed on the back, red shorts, and a black helmet. The background is a blurred forest with yellow and orange foliage, suggesting an autumn setting. The motion blur is horizontal, emphasizing the speed of the ride.

***Dirt. It gets under your skin, under
your finger nails and into every
crevice of your bicycle.***

Better than any bumper sticker dirt says you've really been there. You rode there, you connected, however briefly with the core of 'there' wherever that may be. Here in the Rocky Mountains we're surrounded by world-class trails in every direction and we've gathered a little bit of dirt from each one of them over the last 26 years. Mmmm, sure looks nice against the satin finish of our titanium frames.

Go ahead, get them dirty.

MOUNTAIN

MOOTO X2 6

NEW 2008, 4" travel 29er with MARC suspension

MOOTO X YBB 8

29er with our classic YBB suspension

MOOTO X RIGOR 10

Big 29er wheels, big fun

CINCO 12

5" travel plush all mountain

ZIRKEL 14

3" travel XC, our best do-it-all mtb

YBB 15

Classic soft tail pivotless suspension

RIGORMOOTIS 18

The classic singletack shredder and mountain climber

MOOTO XZ

Sure to become a classic our newest model eats bumps, logs and luges for breakfast and comes back for more. A Matched Arc suspension system featuring 4" of travel and big 29er wheels allow the MootoXz to roll over pretty much anything in it's path while the laterally stiff rear end and seamless titanium front work in perfect harmony to hold your line when the going gets rough.

CINCO

The Cinco is for the rider who knows where they're going, up. Way way up and then down as quickly as possible, over roots, drops, logs and anything else the trail can throw your way. Quad bearings in the stiff aluminum rear end make perfectly with the stout titanium front triangle for responsive handling in technical terrain, efficient climbing and dreamy descending. Yes, you can have it all.

WEIGHT FOR 17": 6.0 lbs.

The Zirkel is designed for use with either 100mm or 125mm travel fork depending on rider preference and conditions. Limited lifetime warranty on all titanium frame members, 2 year limited warranty on aluminum rear end with generous crash replacement policy thereafter.

YBB

20 miles into an epic mountain bike ride you won't care what color your frame is, or that the top tube is shaped like a diamond, teardrop or clover leaf. You'll just want the pain to stop. YBB is the answer. Give yourself a big dose of comfort in a tiny lightweight package and next time you hit the 3 hour mark you'll bust right thru for an extra lap. Lightweight titanium blended with 1 1/8" of pivotless suspension puts the "fun" back in function.

PSYCHLO X

28

Race bred performance perfect over
the barriers and on dirt road epics far
from home

Take to the open road, smooth pavement and the sound of your wheels cutting through the air.

A pure ride of power and grace come together as if nothing else mattered. Click over the gears, stand out of the saddle and crest the hill, slowly settle back into the saddle almost becoming one with the machine. These are sensations that go hand in hand with a great road ride, no matter where you are riding, our fine titanium road bikes will add to a sensational experience.

VAMMOOTS

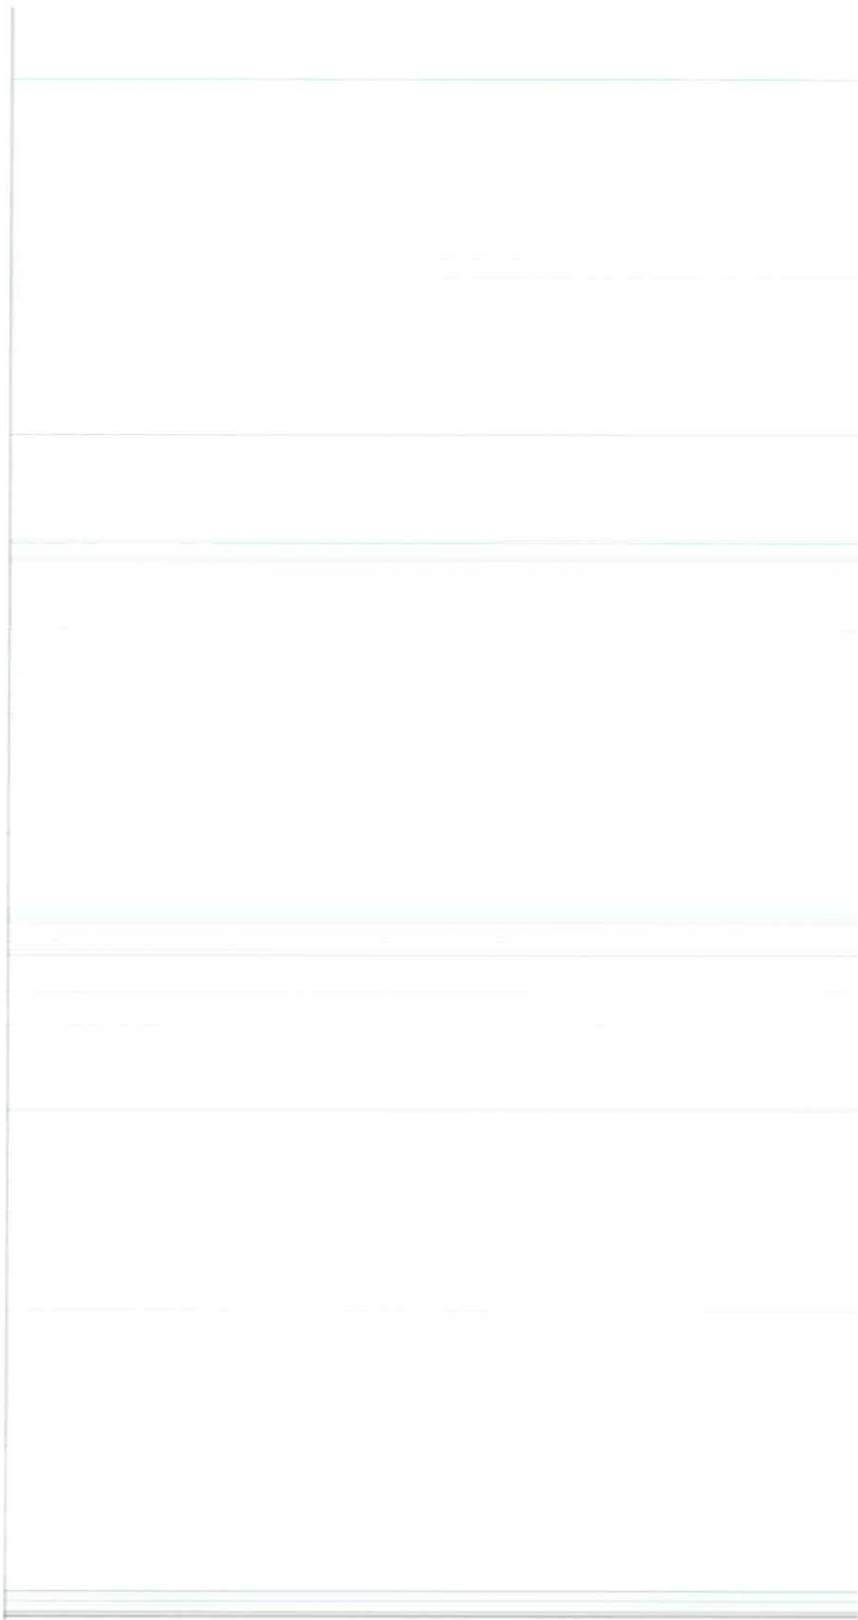

Glide across the tarmac with ease on a highly refined, custom tuned Vammoots roadbike, available in 10 stock sizes. The core of the Vammoots is a custom tuned tube set for each size, handbuilt with attention to detail and care by our skilled craftsmen. Everything not contributing to an out of this world riding experience has been removed, no fluff, no hype, no doodads. Titanium smoothness, 10 stock sizes, handcrafted...any questions?

Limited lifetime warranty on workmanship and materials.

CUSTOM PROGRAM

When Moots started building bikes in 1981 they were all custom. Over the years our knowledge from building thousands of customs has driven our stock line of bikes that you see in our catalogue but we never forgot for some, custom is the only option. In partnership with your local Moots dealer we can build you a custom bike that is dedicated to your unique fit and riding needs. Our Built to Order program will help you and the dealer, along with our knowledgeable sales staff design your custom bike to be everything it should be. Every Moots bicycle is available as a custom build: Road, mountain, cross and everything in between we can build almost anything you have in mind. Custom Handbook PDF available at: http://www.moots.com/?#product/custom_options/

ROHLOFF

All of our full titanium mountain frames can be ordered with our array of custom braze-ons that accommodate the 14-speed Rohloff Speedhub.

S&S COUPLER

Allows many of our bikes to be packed into a 26 x 26 x 10-inch suitcase that avoids airlines oversized baggage fees. They add little to the weight of a bike and pay for themselves in just a few trips.

SLIDER DROPOUTS

Available as an option on several of our frame models. This dropout will allow for single speed or geared riding choices. Including our Psycho-X and Psycho-X-Ybb.

NEW CINCH POST

Moots does not change its' products just for the sake of change so when the idea of a new seat post design came along we knew it had to be special. In the works for 4 years (and many prototypes later) we are ready to release this beauty. A very clean design carried out in Moots fashion. This seat post features independent fore/aft adjustment and independent tilt. Ease of instalment is unsurpassed and adjustment is a "no brainer".

Available in our straight or layback configurations in 27.2 and 30.9 diameters. Lengths available 280, 340 and 380. Patent Pending.

CLASSIC POST

The Moots classic post epitomizes the word simple. A two bolt design with infinite tilt adjustment and strong cradles to hold your saddle where you want it.

Available in 27.2 diameter only, in straight or layback. Our layback offers 19mm of offset for those perfect saddle placements. Lengths of 220, 280, 340 and 380 let you choose the perfect length for any application.

OPEN ROAD STEM

The modern day Moots road stem features a 31.8 diameter handle bar clamp and bi-ovalized stem extension for unsurpassed stiffness.

SIZES

90 x 6, 100 x 6, 110 x 6, 120 x 6, 90 x 0, 100 x 0, 110 x 0, 120 x 0, 130 x 0, 130 x 10
Available in 10 stock sizes as well as custom.

TI-BEAM STEM

The perfect finishing touch for a Moots mountain bike, the TI-Beam stem is available in 5 stock sizes with a 25.4 clamp. Ovalized 1 1/2" extension and machined aluminum faceplate keep it stiff and responsive.

SIZES

90 x 6, 100 x 6, 110 x 6, 120 x 6, 130 x 10
50mm steerer clamp height, custom sizing options available.

TAILGATOR

Go the distance with the classic Tailgator featuring an innovative interior titanium rack and custom bag with 400cu of storage capacity. Just the thing for those long tours when pockets and a standard saddle bag won't quite carry all you'll need. 5lb weight limit and a two year warranty.

HANDLEBARS

Simple, light and bent just right. Titanium flat bar available in 5 or 8 degree bend and 4 stock widths for the perfect fit. Custom options for length and sweep offered on all Moots flat bars. sizes: 22, 23, 24, 25

TI-SPACERS

Stay light and stay right with matching bead blasted titanium spacers.

SIZES

Available in 5mm, 10mm and 20mm sizes as well as custom lengths.

See www.moots.com for all your genuine Moots clothing and accessories needs.
