RAMPAGE TEAM ISSUE

*One step beyond:
the advantage is crucial*

One single track session will show you the Rampage is no ordinary bike. This bike has been strategically engineered to trample the competition. The Rampage has radical new frame geometry designed to match perfectly the full suspension Rock Shox II fork. A Tange Prestige and Prestige Concept main frame with super-stiff True Temper stays combined with full Shimano Deore XT equipment make this bike bulletproof. If you're not on the Rampage, you're probably in second place.

Travel in style with "Outrageous"
water bottles and Action Vests at a glance

MAGNUM[®]

Defining innovation and
craftsmanship

The Magnum[®] speaks for
itself. Tig welded with
massive T-7000 aluminum
tubing and a supersized
chromoly fork and stem,
this combination is light,
fast and strong. Feel this
bike working for you. Full
Shimano DX equipped, Araya
CV-7 welded rims, Panaracer
Smoke tires and fabric toe
traps on Shimano DX low
profile racing pedals prepare
you for the harshest terrain.

Your two most important accessories.
Don't leave home without them.

SASQUATCH®

Seek the extreme

The excessively radical 1992 Sasquatch® introduces a double butted race proven 100% chro-moly frame with bullet-proof tubular arch oversized chro-moly forks. The Sasquatch® is completely Shimano XT and DX equipped and now features the Tomac Attack grip and super soft Vetta Gel saddle. The rims are Araya CV-7 with stainless spokes.

PINNACLE®

Now raging in a trail
near you

Engineered for serious mountain bike fun, the 1992 Pinnacle's® rugged design includes a 100% chro-moly frame, fork, stays, handlebars, stem and seat post. Uphill climbing and radical descents will get easier with Shimano Deore DX 21-speed gearing, deluxe Shimano quick-release hubs with stainless spokes and Araya alloy rims. Components for the Pinnacle® were carefully chosen for superb performance and unbeatable value.

BIGFOOT®

Function and fashion:
no compromise

Discover the legend. The 1992 Bigfoot® is designed for smooth comfortable riding in any environment. This bike comes equipped with bullet-proof Shimano Deore LX gearing, Shimano light alloy cranks, Araya VP-20 rims, and new Axiom® blackwall tires. Additional highlights include the Zoom chromo-moly seat post, Vetta saddle and Shimano cantilever brakes. Frame construction boasts chromo-moly main triangle, fork and seat stays.

5869

Axiom® HO 2 OH fanny packs and fashion caps should be with you at every trail stop.

KOKANEE

*Performance you demand,
style you deserve*

The Kokanee has been engineered for 1992 with frame and component refinements to balance performance and strength at an affordable price. It utilizes a 100% chro-moly main triangle, seat stays, oversized fork, and down tube for the demands of mountain biking. Be sure to notice top names such as the Shimano 300 component group with 500 LX levers, Araya alloy rims and Shimano alloy cranks.

*Hook up the cadillac of bike trailers for
your children's journey.*

The bottom line: ride one and enjoy!

The 1992 Bush Pilot, the go-anywhere machine, now boasts a tri-moly frame, fastback seat stays, Shimano Exage 200 21-speed Rapid Fire shifting and a refined sloping top tube design. Additional key features include lightweight Araya alloy rims, a quick-release front hub, a new black 12" seat post, soft padded Norco saddle and Shimano cantilever brakes. The tires are new flatter tread mountain blackwalls. Can you beat this? No way!

KATMANDU

*The perfect blend of
comfort and durability*

The Katmandu features
value-packed performance
with popular components
such as Suntour XCT
Accushift 21-speed Wishbone
gearing. An oversized chro-
moly down tube and oversized
fork reduce weight and add
strength (and look ultra-
cool). Alloy rims with a quick-
release front hub make this
bike a definite winner on the
street and on the trail.
Check out the hot new
colours for '92.

MOUNTAINEER® SL

The key to your cycling happiness

The Mountaineer® is an unbeatable component package tied into one practical application bike.

The Mountaineer® SL is redesigned for 1992 with new size and colour combinations to fit the most discriminating rider.

The ever popular Shimano 18-speed tourney provides easy shifting power, while sealed hubs ensure free rolling enjoyment. Be sure to check out the alloy rims and durable Sugino cranks.

JAMMER

One hot combination
for junior performance

Redefining junior performance
and quality, the Jammer
utilizes a Shimano Hyperglide
18-speed shifting system
with Chang Star cantilever
brakes. Gripping the street
or trail are the new 24"
blackwall tires (boys model
only) rolling on light-weight
yet strong Araya alloy rims.
The Norco® padded saddle
provides nothing less than
pure comfort.

WILDERNESS

MINI MOUNTAINEER®

The first choice for the junior rider

The Mini Mountaineer® is for the rider who wants to cruise the town in style and at any time blast onto the trail. This hot junior mountain bike features a 24" wheel, Shimano 12-speed Hyperglide shifting, powerful cantilever brakes with reach adjuster, sealed mechanism hubs and on the boys model, new deluxe blackwall tires. High rise stem and bar combination for rider comfort coupled with a Norco® deluxe padded saddle.

MICRO MOUNTAINEER® 527

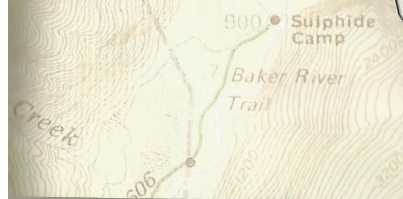

For small riders who demand big fun

The Micro Mountaineer® is what you are after. Styled like a full size mountain bike, the Micro features a 20" wheel and sloping top tube for increased standover clearance. Enjoy easy shifting with Shimano Hyperglide 6-speed indexed gearing and reliable braking with Chang Star cantilever brakes. The tires are durable gumwall mountain knobbies for full-on grip. High rise stem and bar combination for rider comfort coupled with a Norco® deluxe padded saddle.

Delivering optimal
riding enjoyment

Reliable yet exciting, the
Cherokee comes in both
Men's and Ladies styles
and features smooth, easy
shifting with Shimano
Hyperglide 12-speed gearing.
A versatile mid-rise bar and
stem combination coupled
with the Norco® deluxe padded
saddle offers superior riding
comfort. Check out the new
hot colours and sizes.

Seahpo
Peak

MINI CHEROKEE

Peak stylin' with unbeatable performance

The boys and girls Cherokee offers a comfortable mid-rise handlebar position and relies on the trusted Shimano tourney shifting package. Notice the new black painted components and the redesigned frame geometry which allows for more standover height. The 24" chrome plated mountain rims and long wearing gumwall tires deliver superior performance.

MICRO CHEROKEE

Super cool looks with durable construction

This junior boys and girls mountain bike offers a hot combination of components such as easy-shift Shimano SIS 6-speed gearing and Chang Star sidepull brakes. Vibrant frame colours and graphics with trick black components keep this micro one step ahead of the competition.

ARCTIC

Light rapid transit

The Arctic, for all your adventures, is now available in both Mens and Ladies styles with a specially designed tig welded Hybrid chromoly main triangle and rugged Unicrown fork. Shifting and stopping are simple with Shimano Rapid Fire 21-speed gearing and cantilever brakes. Achieve full comfort cruising town or trail on our Hi-rise stem, flat bars and wide saddle.
