A large, light gray world map is centered in the background of the page, spanning across both the left and right sections. It is composed of a grid of small dots, with the density of the dots forming the outlines of the continents.

For nearly twenty years Prowheel has been the preferred source for high value cranksets serving all segments of cycling from DH to Folding. Our focus as a supplier is to offer the utmost in reliability, delivery, quality and selection.

We serve a global customer base through our China and Taiwan operations and offer product configuration and customization options unsurpassed by any other manufacturer. We are committed to building quality products with high value feature sets at a competitive price, delivered on time.

PROWHEEL. CRANK IT UP.

TECHNOLOGY & VALUE

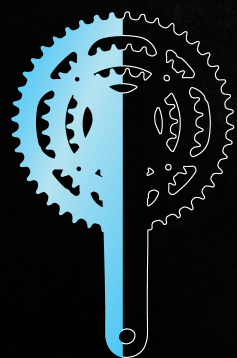

TORQUE TUBE

A completely redesigned interface between our tubular bottom bracket spindle and drive side crank arms maximize pedal power transfer in a lightweight, efficient design.

CoVEC SURFACE TREATMENT

Color Vacuum Electro Deposition Coatings (CoVEC) offer increased surface durability while enhancing luster and depth in our crank's finishes.

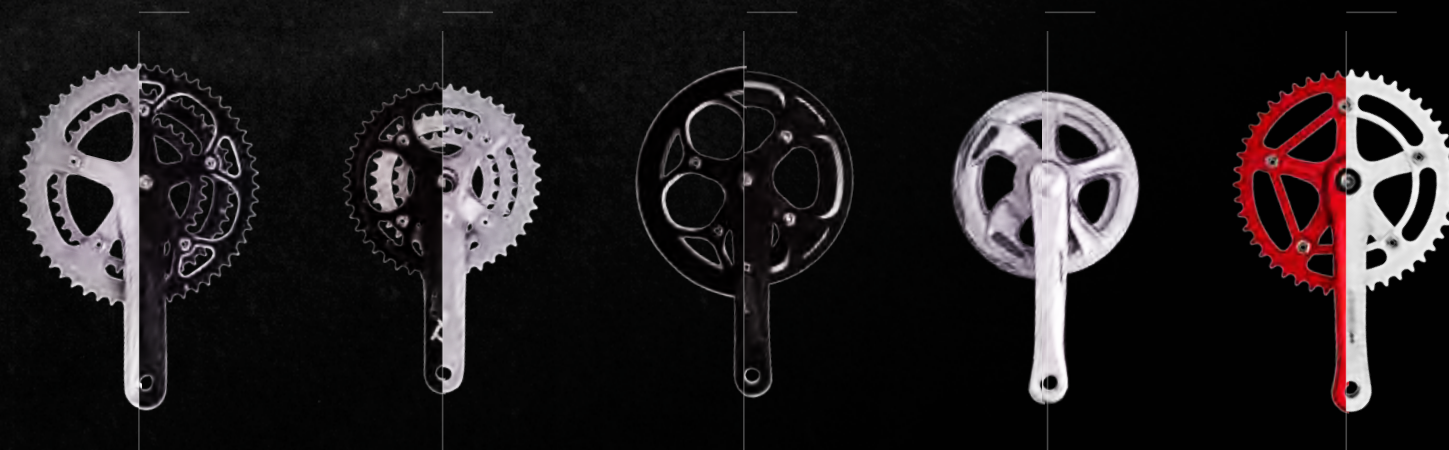

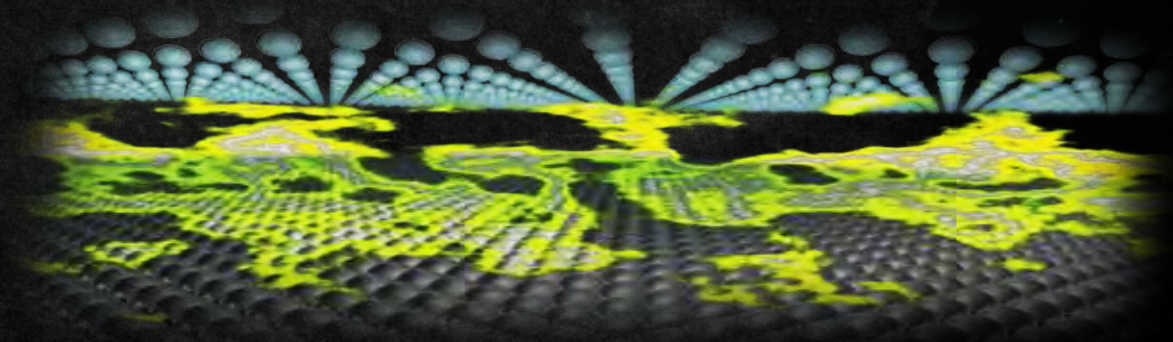

ENDLESS CUSTOMIZATION

Select from a myriad of crank arm styles, chainrings, guards and bottom bracket interfaces to fit your needs or select from our vast array of preconfigured products to streamline your purchasing.

Large diameter tubular spindle is lightweight.

Forty eight microsplines optimize surface contact area
