THE TRADITION OF INNOVATION CONTINUES

At Scott, cycling is a lifestyle. We design products to enhance the essence of cycling... products for The Sport of Life™. When you get right down to it, uncompromised performance is the bottom line. It's simple, a bicycle should have a certain intangible feeling of correctness. It should just feel right.

Whether you race, trail ride, or commute, your SCOTT bike will fit perfectly and do its job with impeccable manners. That's what we mean by performance.
