

TOROKER
1998 Bicycles

BMX Racing

Just ask AA Pro Steve Veltman what he uses to clean up the competition. Torker bicycles and components. That's because Torker offers the ultimate in race proven performance BMX designs.

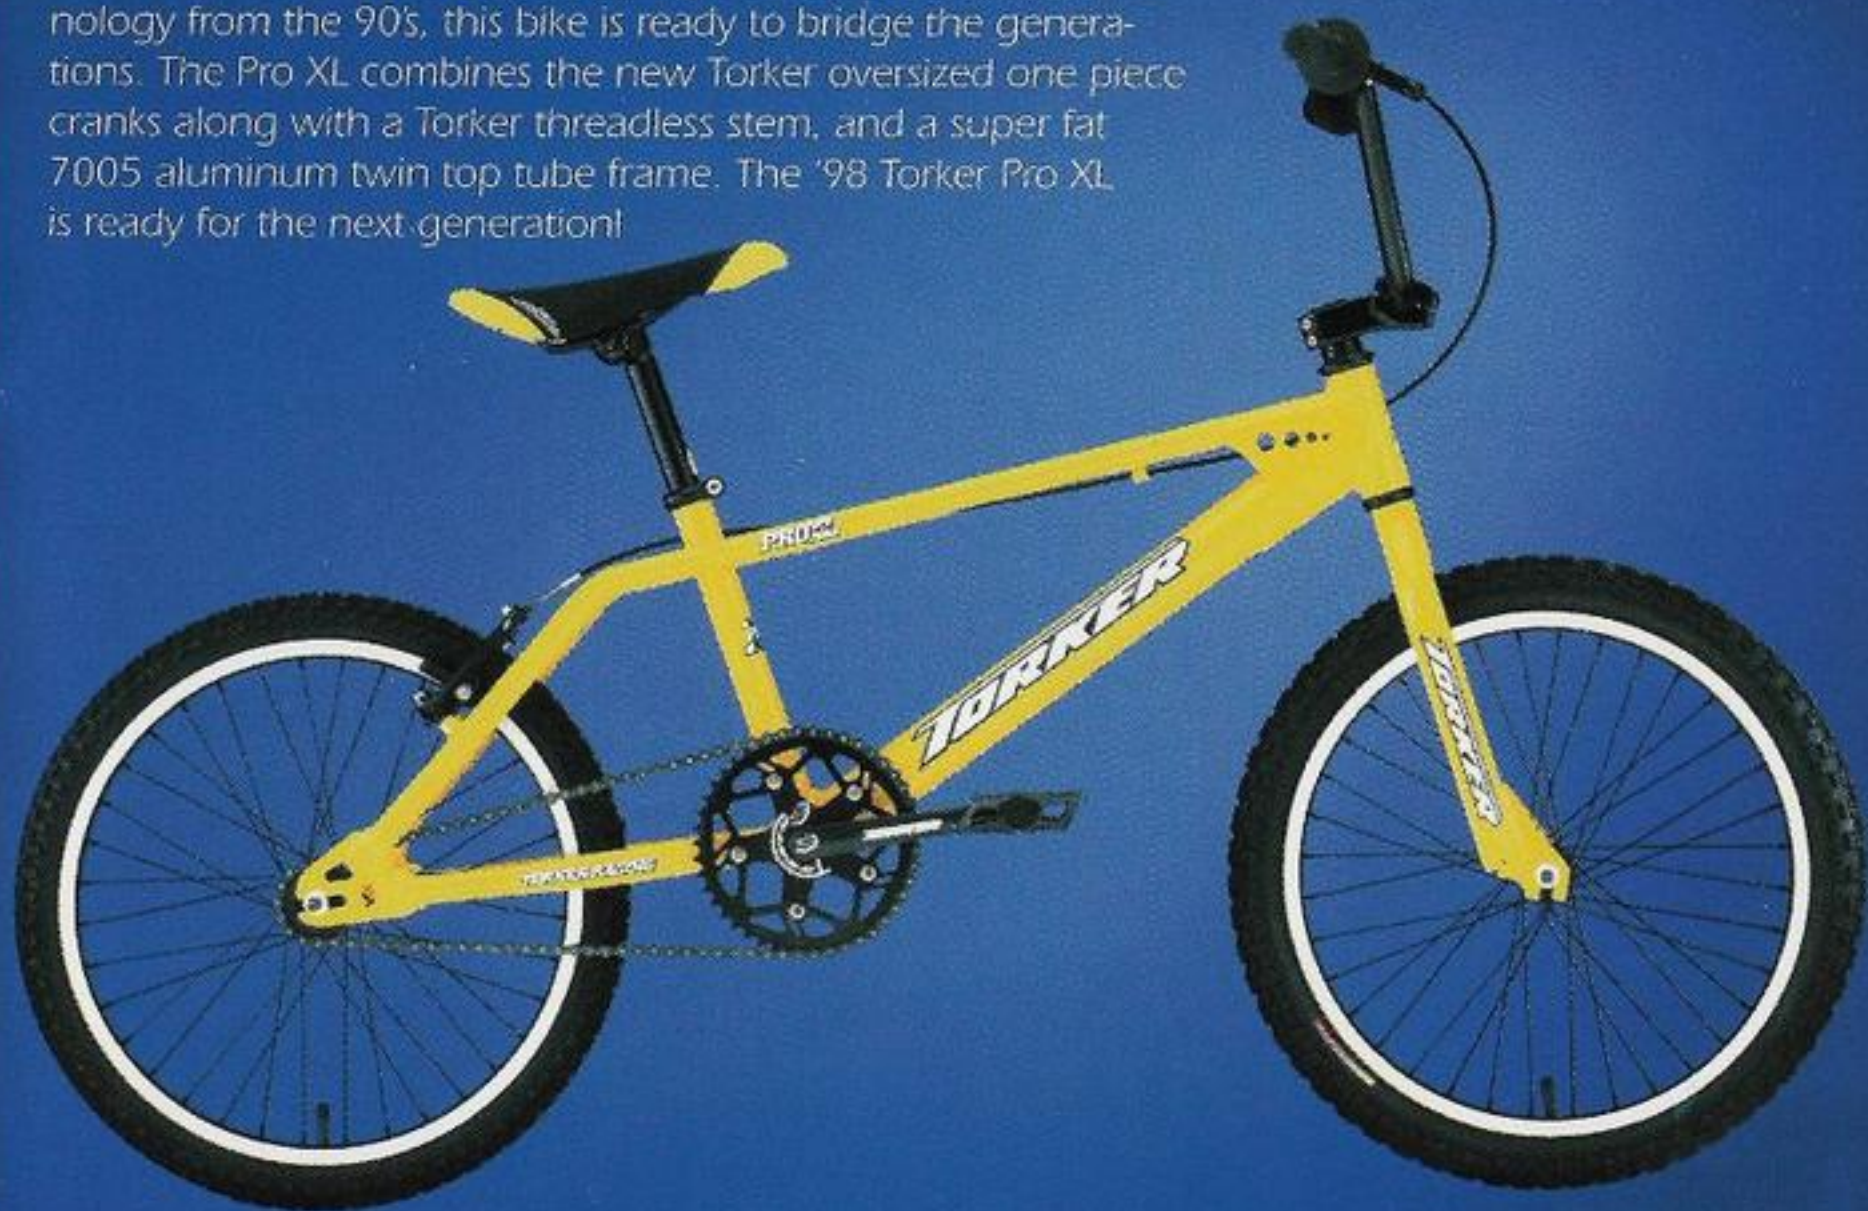

Torker Aluminum Frame Set

The legendary twin-top tube Torker frames, manufactured with 21st Century materials. 6000 series aluminum alloy combined with the unique twin top tube design provide unmatched stiffness and strength compared with traditional diamond style frames. Hand built in the USA, and available in Pro STD, Pro XL and 24" Cruiser sizes. The legend continues...

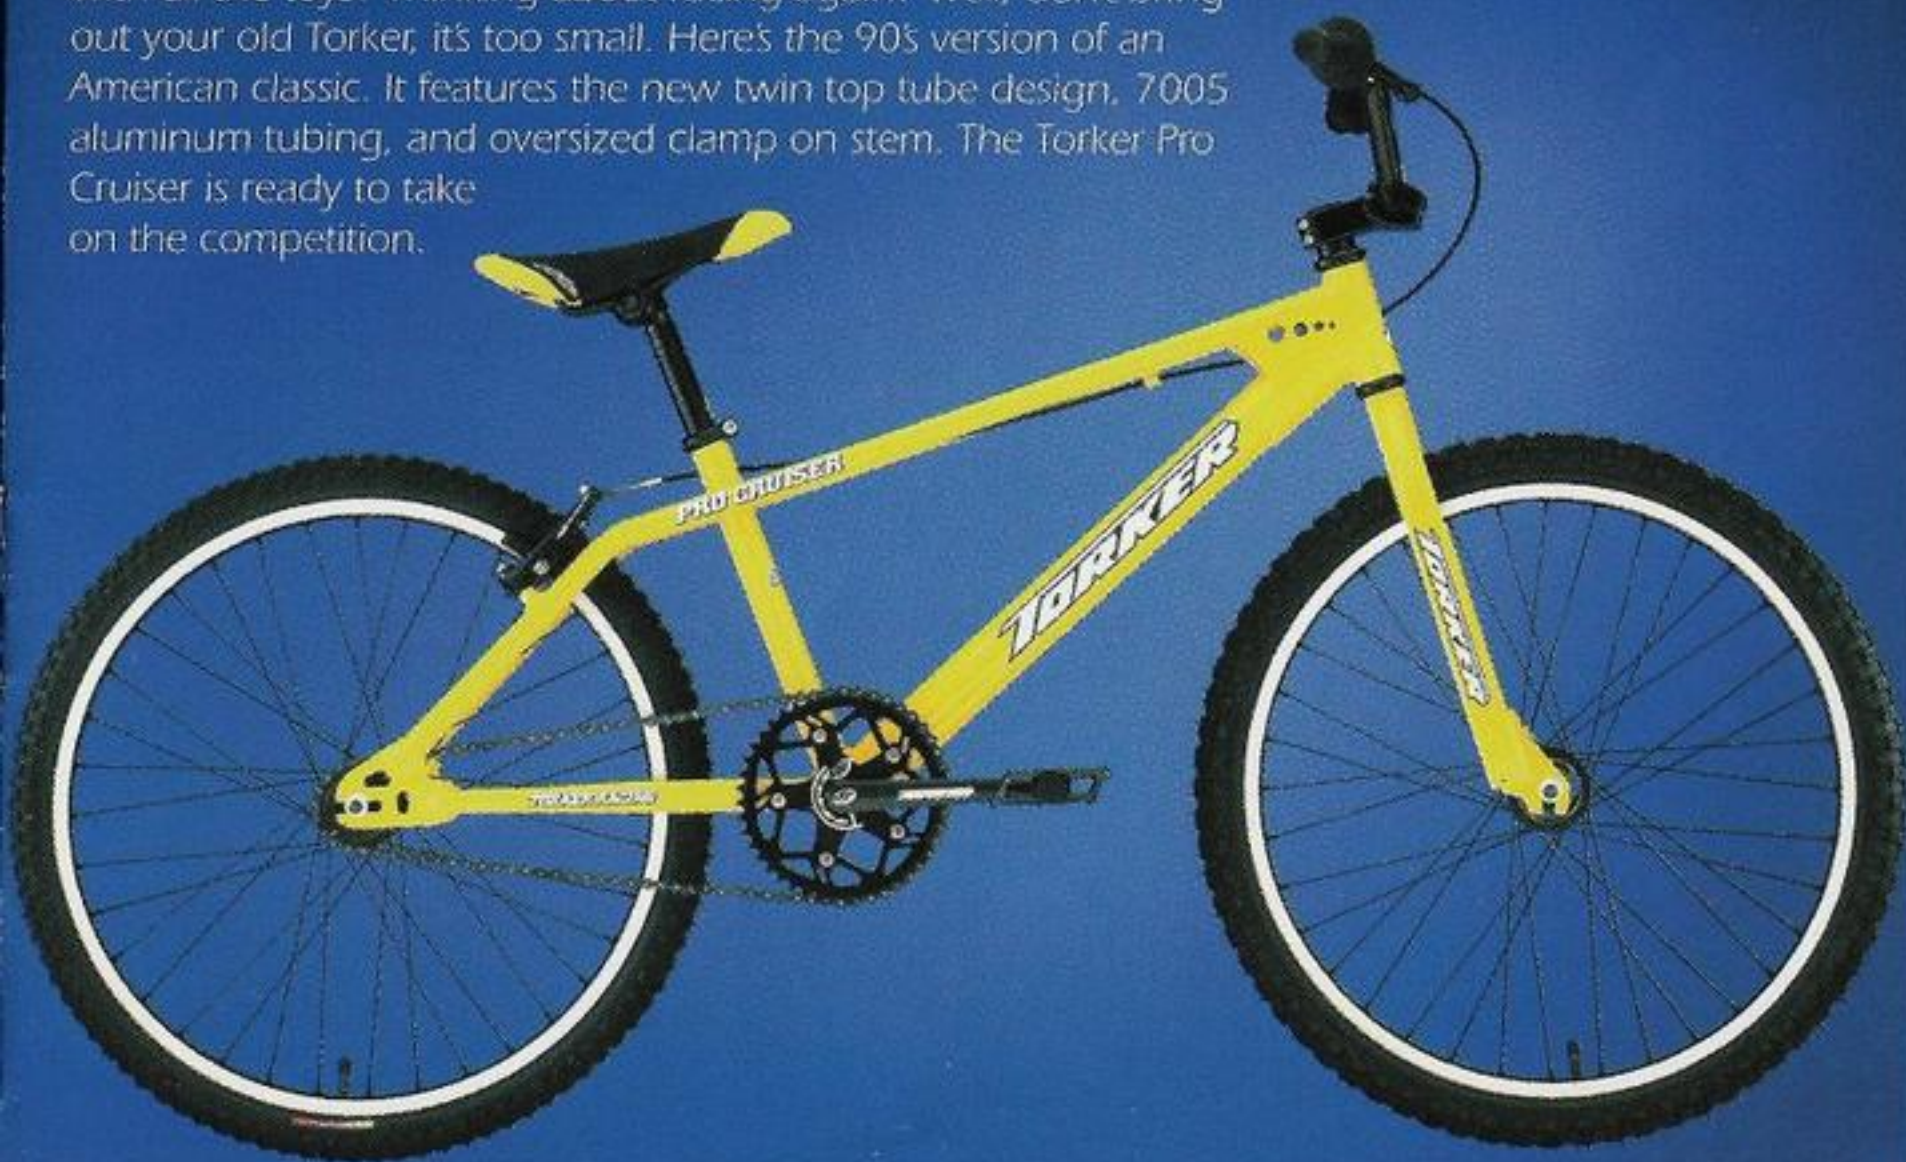

torker pro xl

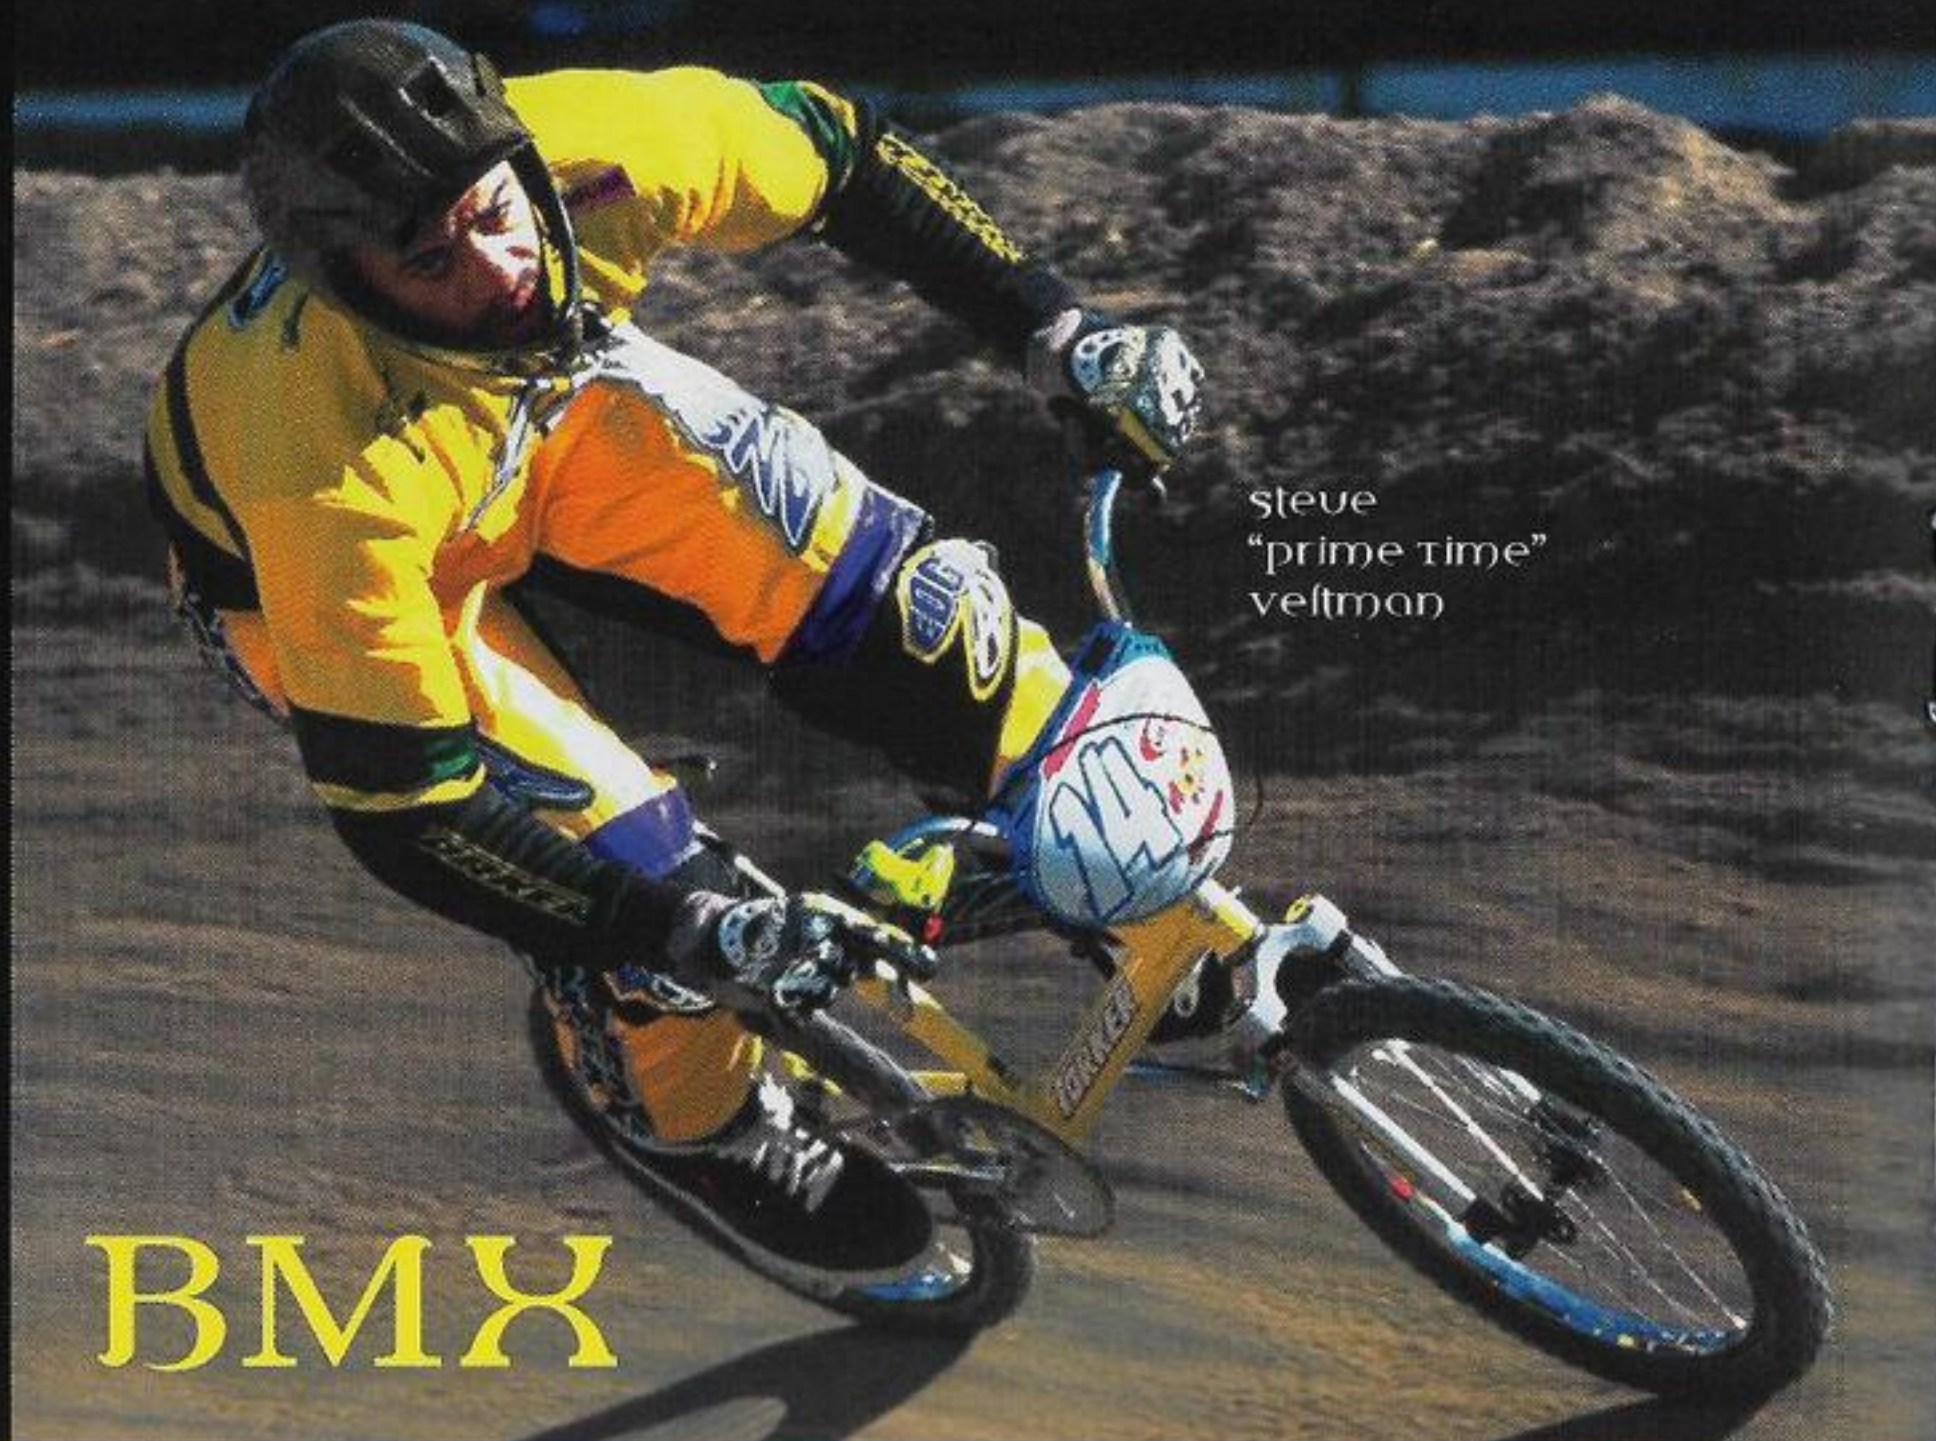

Retro-heads alert! With classic styling from the 80's, and technology from the 90's, this bike is ready to bridge the generations. The Pro XL combines the new Torker oversized one piece cranks along with a Torker threadless stem, and a super fat 7005 aluminum twin top tube frame. The '98 Torker Pro XL is ready for the next generation!

torker pro cruiser

Remember when you were 12 and you had that trick 20" Torker with all the toys? Thinking about racing again? Well, don't bring out your old Torker, it's too small. Here's the 90's version of an American classic. It features the new twin top tube design, 7005 aluminum tubing, and oversized clamp on stem. The Torker Pro Cruiser is ready to take on the competition.

BMX

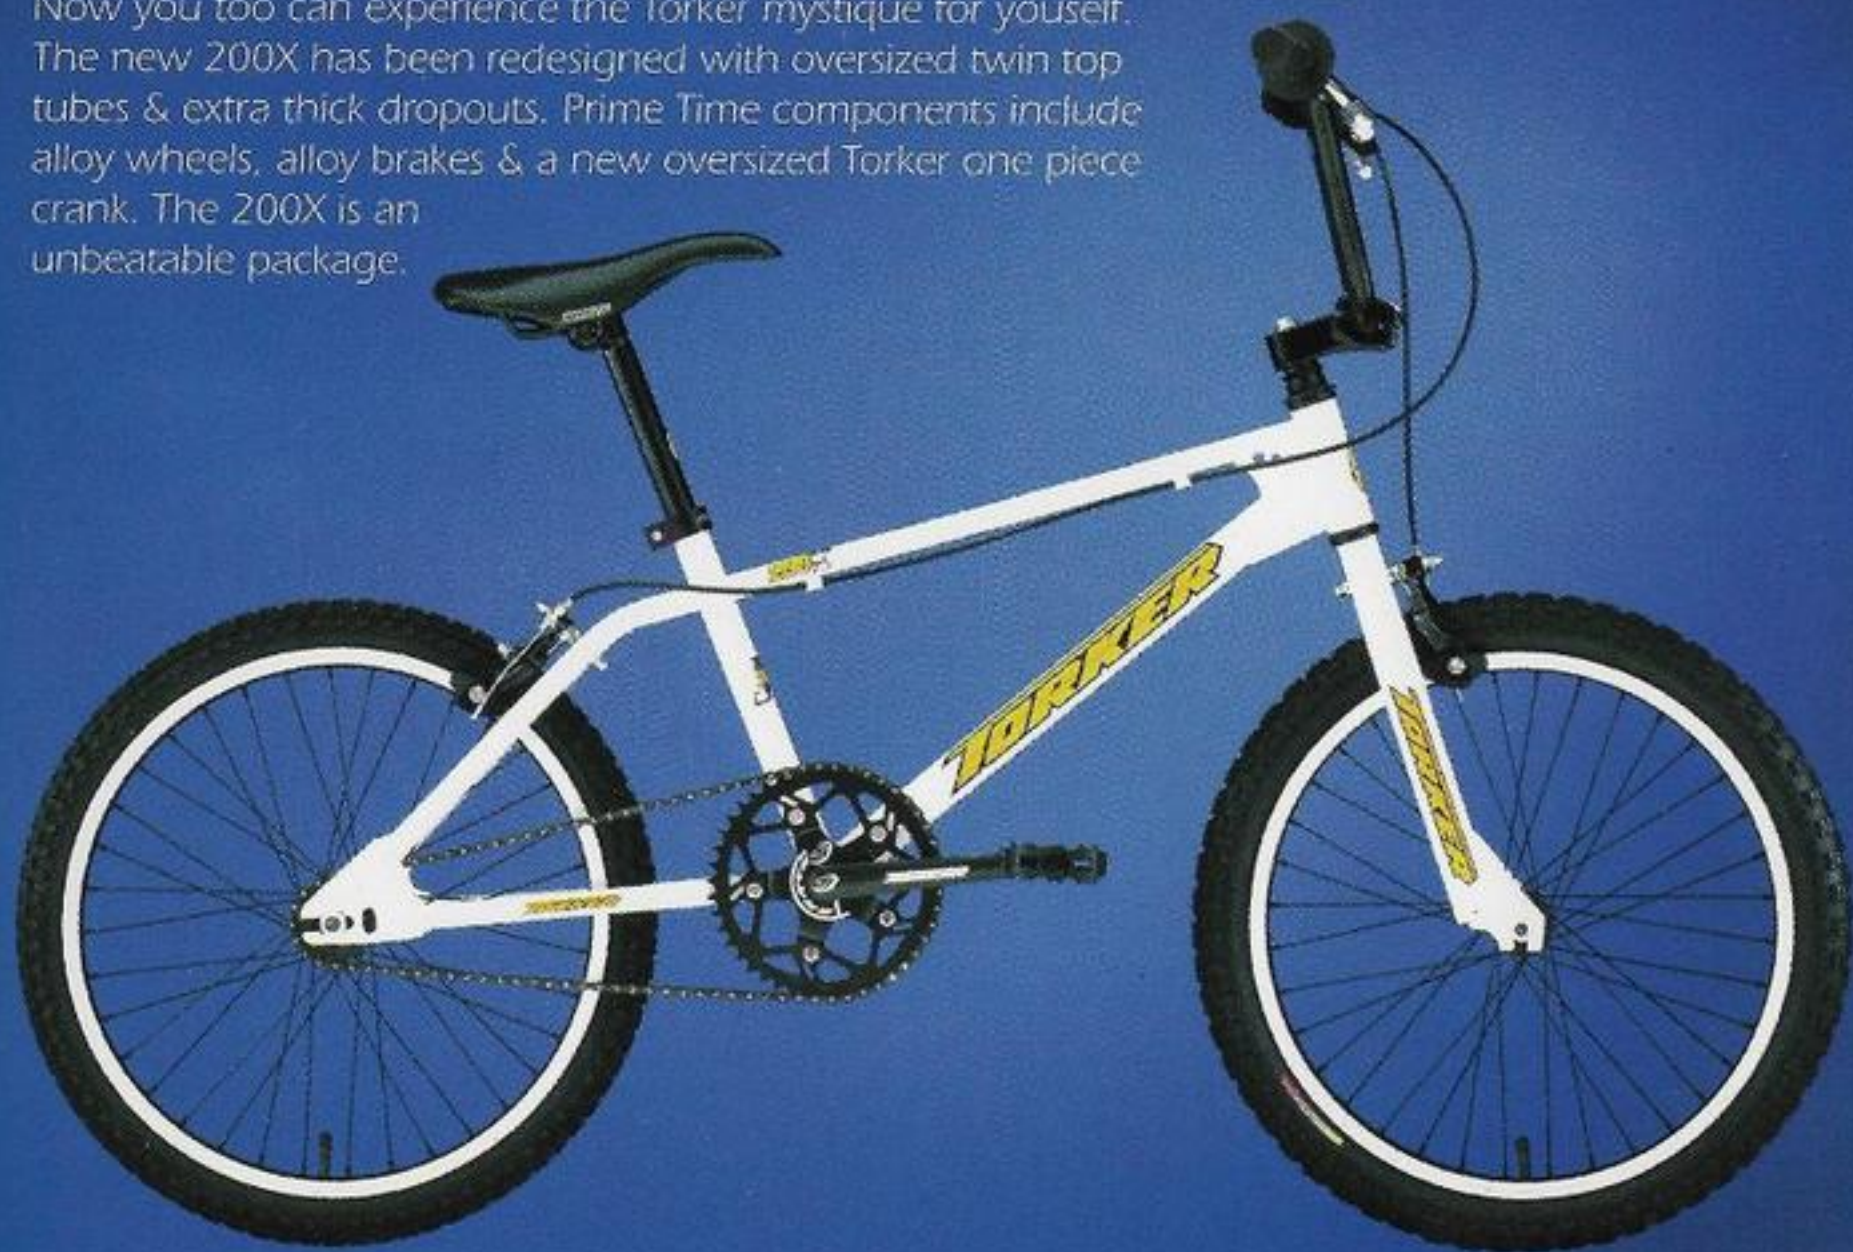

torker 280X

Old school flava with a bang! New oversized twin top tube Torker frame with super phat dropouts, the 280X is ready to rock! Spec'd with a new Torker padded saddle with scuff guard, 'cause bails will happen. Add the new Torker alloy pedals for anti-pedal slippin'. The '98 280X is sure to have everyone trippin'!

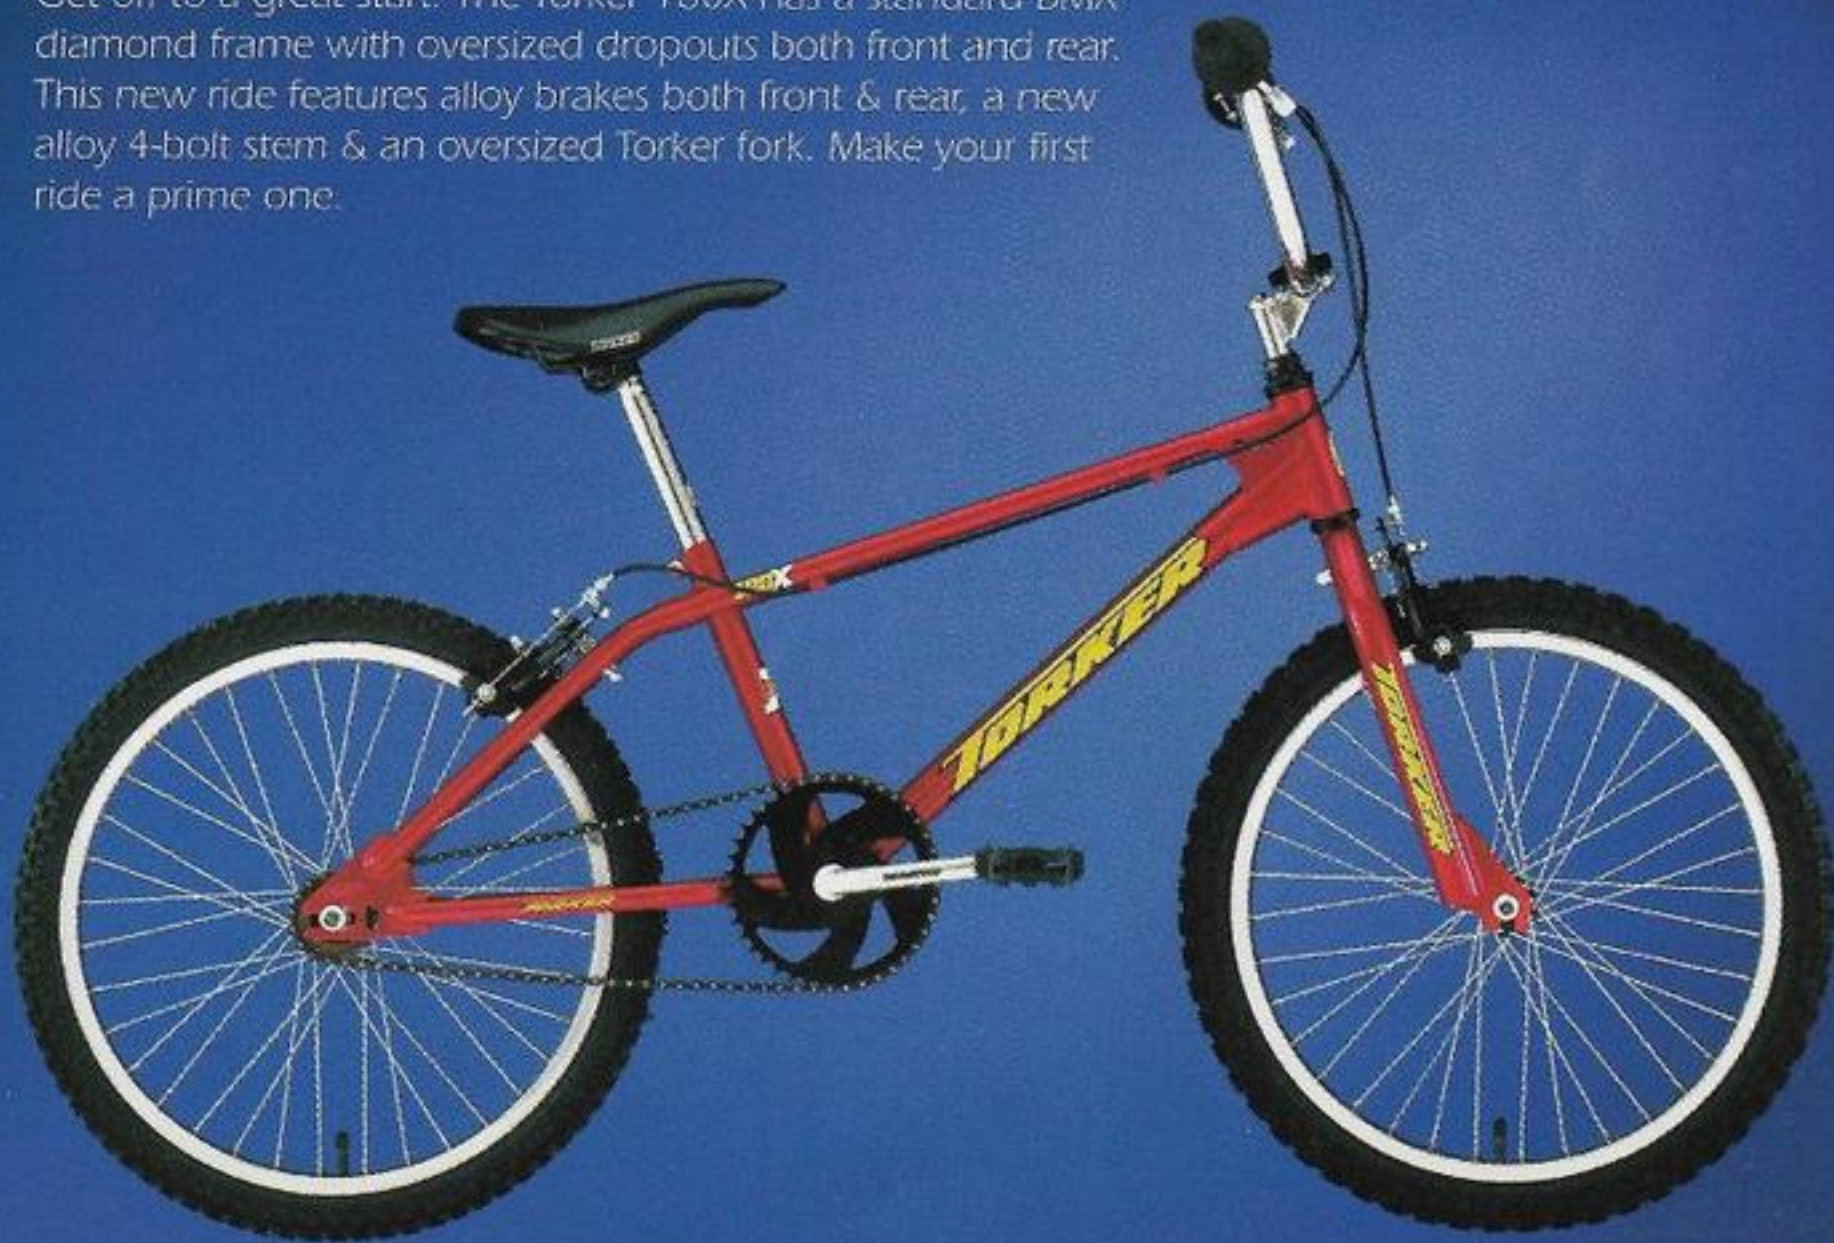

Torker 200X

Now you too can experience the Torker mystique for yourself. The new 200X has been redesigned with oversized twin top tubes & extra thick dropouts. Prime Time components include alloy wheels, alloy brakes & a new oversized Torker one piece crank. The 200X is an unbeatable package.

Torker 180X

Get off to a great start. The Torker 180X has a standard BMX diamond frame with oversized dropouts both front and rear. This new ride features alloy brakes both front & rear, a new alloy 4-bolt stem & an oversized Torker fork. Make your first ride a prime one.

Torker TFX

When your passion lies on the ramp or pavement, look no further than the new & improved TFX. The all new "retro" oversized twin top tube frame & fork with extra thick dropouts rolls on 48H wheels, stopped by 1999 calipers. The new torker oversized OPC & alloy platform pedals deliver the propulsion. The Odyssey Gyro satisfies your spinning fits.

This package offers any level freestyler tools for the tricks of the trade.

Torker Dual

The all new Torker Dual will put you one jump closer to becoming a trail boss. Built around the new "Retro" oversized chromoly twin-top tube frame and fork with super phat dropouts. Roll it on 48H wheels driven by the new Torker oversized chromoly OPC and platform pedals. The new Tektro linear pull canti's and front caliper provide stopping power to keep the squirreliest rider under control.

Torker chromoly crank set

Start with a splined, heat-treated chromo spindle. Add a pair of silky-smooth sealed cartridge bearings. Then hang a pair of hollow, heat treated chromo arms on the ends for the very best value in tubular cranks. Strong & stiff. Comes in 175mm or 180mm sizes. Chrome plated.

Torker t-shirt

Check out the new Torker threads! This 100% cotton t-shirt features the Torker logo on the front. Very Cool!

Torker cap

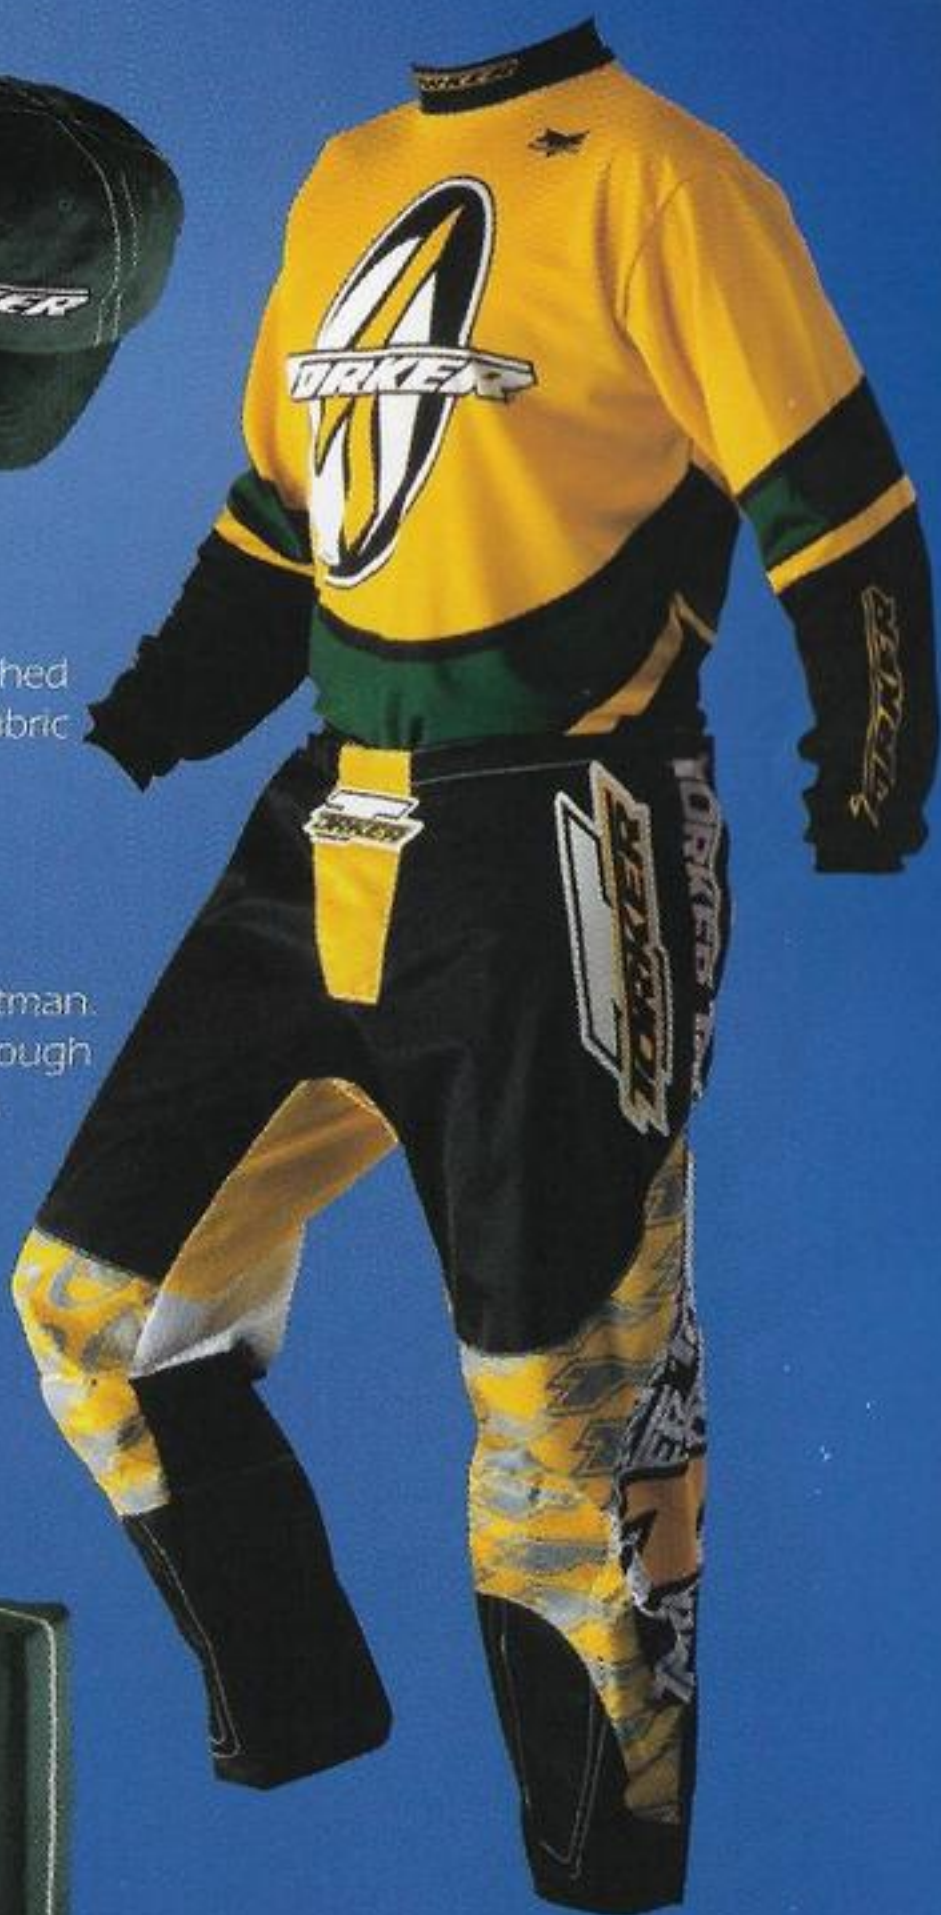

The new Torker Cap is made from 100% brushed cotton. It features the Torker logo on front. Fabric fastener with buckle assures a snug fit.

Torker uniform

Sport the same colors as Torker pro, Steve Veltman. Lightweight, durable polyester jersey. Super tough nylon leathers with Thermaweld Torker logos.

Torker travel bag

Take your bike on the road with the new Torker travel bag. Made big enough to fit your bike, parts and trophies.
