

FACTS TO KNOW

During the last few years, almost every bicycle factory large or small, was forced to limit it's production mainly to frame building, painting, and to the assembly of components brought from all over the world.

It has become a common practice for the bicycle manufacturer to purchase most of their bicycle components from various specialty manufacturers, who are highly automated and can afford the most sophisticated equipment needed in order to compete in today's world market.

When buying a bicycle, it is important to keep in mind the following facts, regardless of who recommended it to you, or how well it is advertised:

- 1) Check carefully the quality of the frame, whether welded, fully lugged or hand brazed, and how well it is finished.
This is basically what the bicycle manufacturer is offering you.
- 2) Carefully compare the components or the specifications of the desired bicycle.
There is a big difference in cost from one item to another.
- 3) It is important to have the bicycle fully assembled and properly tuned by your dependable dealer.
- 4) Compare the quality you get with the price you pay.

THE UNIVERSAL STAR

UNIVEGA: Is specifically designed for the U.S. market to suit the most discriminating buyer — 14 models for almost any age and every need.

UNIVEGA: Is supplied with the best possible components for each and every particular model — detailed specifications are on page 14 and 15 for your comparison.

UNIVEGA: Is competitively priced, and sold by experienced bicycle dealers.

UNIVEGA: Is covered by a limited warranty, and conforms with the Consumer Product Safety Commission.

LUCKY STAR

Will delight the beginner with it's unique frame design (His and Hers). Fully ball bearing moving parts — 16" wheels, pneumatic tires and coaster brake rear hub.

Available in Flamboyant Red or Sky Blue.

DISCOVERY

For the growing girl to discover the fun of riding a quality bicycle with good looks. Fully ball bearing moving parts — 20" wheels, pneumatic tires, 36 spokes, positive action coaster brake.

Available in Flamboyant Red or Sky Blue.

EXPLORER

The latest in Hi Riser bicycles with Motocross look, for the young boy to explore with — carefully welded frame with low bottom bracket, forged crank — 20" wheels, 36 spokes, knobby tires and coaster brakes.

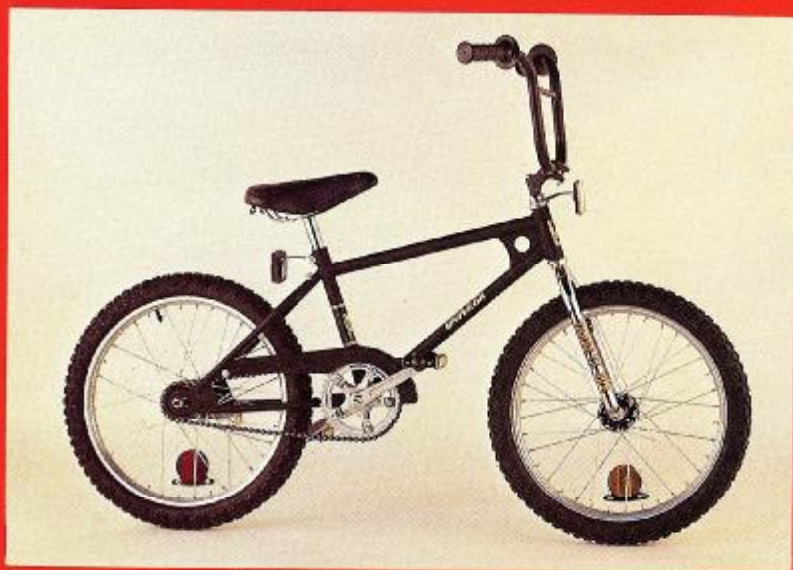

Available in Orange or Silver with black trim.

PATHFINDER

The rugged Motocross — Specially designed frame with heavy duty steel tubing — gusseted head and gusseted high bottom bracket for strength and better clearance, heavy duty tubular steel fork — 20" wheels with knobby tires and heavy duty steel rims — Motocross hi flange anodized front hub and coaster brake rear hub. Available in Orange or Silver with black trim.

PACESETTER

High performance Motocross, with rugged frame construction as the PATHFINDER, but with TANGE Chromoly 500 fork and TANGE head set — forged alloy cotterless crank with interchangeable chainwheel rings — 20" wheels, ARAYA Motocross anodized alloy rims, hi flange anodized front and rear hubs. Available in Black or Silver with black trim.

SUPER STAR

THE PERFECT 10 SPEED, DESIGNED FOR THE YOUNGSTERS TO KEEP UP WITH THE FAMILY. Fully lugged frame, 24" x 1-3/8" wheels, with SUNTOUR 10 Speed. See specifications for more details.

TRI STAR

LIGHTWEIGHT 3 SPEED. DISTINCTIVELY CLASSIC IN DESIGN. BUILT FOR COMFORT AND SMOOTH RIDING. Upright handlebars, spring cushioned saddle, fully lugged frame combined with 27 x 1 1/4" wheels. See specifications for more details.

SUPER TEN

A TRUE SUPER VALUE, WITH DURABILITY AND GREAT LOOKS. Fully lugged frame, alloy cotterless crank, 27" wheels with alloy hubs and SUNTOUR SEVEN 10 Speed. See specifications for more details.

Nuovo Sport

LIGHT, BEAUTIFULLY DETAILED —
MAKES RIDING A NEW SPORT. Fully
lugged frame with Hi Tension steel
tubing, alloy cotterless crank, 27"
wheels with alloy hubs and THE
SUNTOUR V.G.T. LUXE derailleur.
See specifications for more details.

Viva Sport

NO EFFORTS HAVE BEEN SPARED
IN BUILDING THIS MODEL, TO MAKE
CYCLING A LIVELY SPORT, YET,
MOST COMPETITIVE IN IT'S CLASS.
Fully lugged frame with Hi Tension
butted steel tubing, alloy cotterless
crankset, 27" X 1-1/8" narrow wheels,
alloy hubs with quick release front,
SUNTOUR V.G.T. LUXE derailleur.
See specifications for more details.

Gran Turismo

AN OUTSTANDING TOURING MACHINE, WITH HIGHLY SELECTED ALLOY COMPONENTS. Built with Hi Tension butted steel tubing, tapered stays and specially designed fork crown. Fitted with alloy cotterless crankset, interchangeable chainrings, 27 X 1-1/8" wheels, ARAYA alloy rims, alloy hubs with quick release, SUNTOUR V.G.T. LUXE derailleur with finger tip handlebar end controls. See specifications for more details.

Gran Rally

HAND BUILT WITHOUT ANY COMPROMISE, FOR HIGH PERFORMANCE TOURING. Hi Tension double butted tubings throughout, special rear stays, Cinelli type fork crown, professional type forged light alloy crankset, alloy wheels, with SUNTOUR CYCLONE derailleur. See specifications for more detail and compare the difference.
