

cannondale
eighty-two

Ladies and Gentlemen:

Cannondale will be 12 years old this summer. From the start, we have tried to produce innovative, quality products at reasonable prices, backed by good customer service. In that tradition, we are pleased to bring you our 1982 line of fine outdoor equipment.

Each year we try to improve our existing products as well as introducing new ones. A few of this year's product improvements include widening the back band on our cycling gloves, adding a new spring cover for the panniers, designing a more stable reflector housing for all of our bike packs, and anodizing the front and rear bicycle carriers in silver and black. The detailing on much of our clothing has also been improved, including an attractive, embroidered multi-colored logo.

Our new products include a line of bicycle clothing, styled for both men and women, featuring shorts, three different shirts, two windbreakers, three racing hats, and a new rain suit. We are also introducing two black, foam-lined duffles with a zip on/off accessory bag.

We would like to take this opportunity to thank you for your patronage in the past and assure you of our dedication to providing you with quality outdoor products in the future.

Sincerely,

Joseph S. Montgomery
President
Cannondale Corporation

Cannondale Corporation
9 Brookside Place
Georgetown, CT 06829

Our Guarantee:

Our products are designed and tested to insure maximum performance. We're proud of our efforts and guarantee our equipment to be free of defects in materials and workmanship.

Should something escape our rigid quality controls, we will repair or replace the product at no charge. We will also be happy to perform all other repairs (those that are not our fault or occur from normal usage) as inexpensively as possible. In either case, send the product along with a note detailing the problem to your authorized dealer or to the Cannondale Corporation, Friendship Road, RD #6, Bedford, PA 15522

If you need assistance, please call our Customer Service Department at (203) 838-4488. They will be happy to help you.

TENTS

The primary objective of a tent is to give you a comfortable, safe shelter in a hostile, or potentially hostile, environment. It follows that a tent must go up quickly and easily, and provide a sheltered area to shed wet or dirty gear, thus keeping your sleeping area clean and dry. We find these features to be essential, yet lacking to one degree or another in most other lightweight tents.

We designed our tents to erect quickly (less than two minutes with a little practice), with only two pole sections and two stakes (four more stakes are provided for the tie down loops to give additional security in high winds). The integral "fly" of each tent is sewn in, so there are no additional pieces to erect (or to purchase).

Each of our tents has at least one vestibule, . . . transitional shelters that let you get in out of the weather where you can shed wet or dirty gear before entering your sleeping area. Protected down to the ground on all sides, each vestibule has two zippered entrances/exits. In fair weather they may be unzipped, rolled, and tied. With two zippered and hooded vents in each peak, these vestibules are ideal areas for cooking in inclement weather. They are also great areas for storage of gear that is either too "grubby" or too large to keep in the sleeping area, but which you want kept dry and within easy reach. These are the largest, most practical, and best protected vestibules of any lightweight tents we've seen. . . In our judgement, essential for true wilderness comfort.

Made like a "Thermos Bottle", our unorthodox and sophisticated design will keep you warm and dry—by insulating the sleeping area from the outside air. The integral "fly" and interior wall are both constructed of water repellent, breathable, ripstop nylon. They are attached to each other along their ends with a 6" wide baffle of ripstop.

The integral "fly" extends all the way to the ground and does not touch the inner wall at any point. Warmth liberated by your body collects and forms a warm buffer zone in the space between the "fly" and the inner wall. This warm, dead air space both insulates the sleeping area and eliminates condensation within.

The coated bathtub floors extend 12" up the tents inner walls all around. There are no perimeter seams at ground level and the floor corners, the primary area where most other tents leak, are purposely elevated from the ground.

Tightly woven, no-see-um proof, mesh screens zip onto the storm door but are mounted outside of it. Both may be operated individually. One set of zippers drops both the screen and door, while another set drops only the door. Ventilation can thus be controlled from within the sleeping area without unzipping the screen.

The aerodynamic shape of our tents ensure stability, tautness, and a quiet night's sleep. Tested in severe winds, flapping is non-existent due in part to the smoothly arched ridge line and catenary cut. Careful analysis of fabric weave and selection of pattern cuts ensure a smooth tautness throughout. Only premium materials and methods are employed and each tent must pass rigid inspection before it leaves our hands. . . you are assured of uncompromised quality.

Production of these tents is very time consuming and we apologize for any delivery delays should they occur. . . we will not sacrifice quality to meet demand.

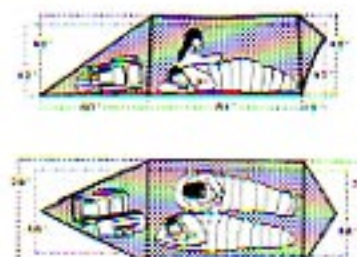

C891—Wabash

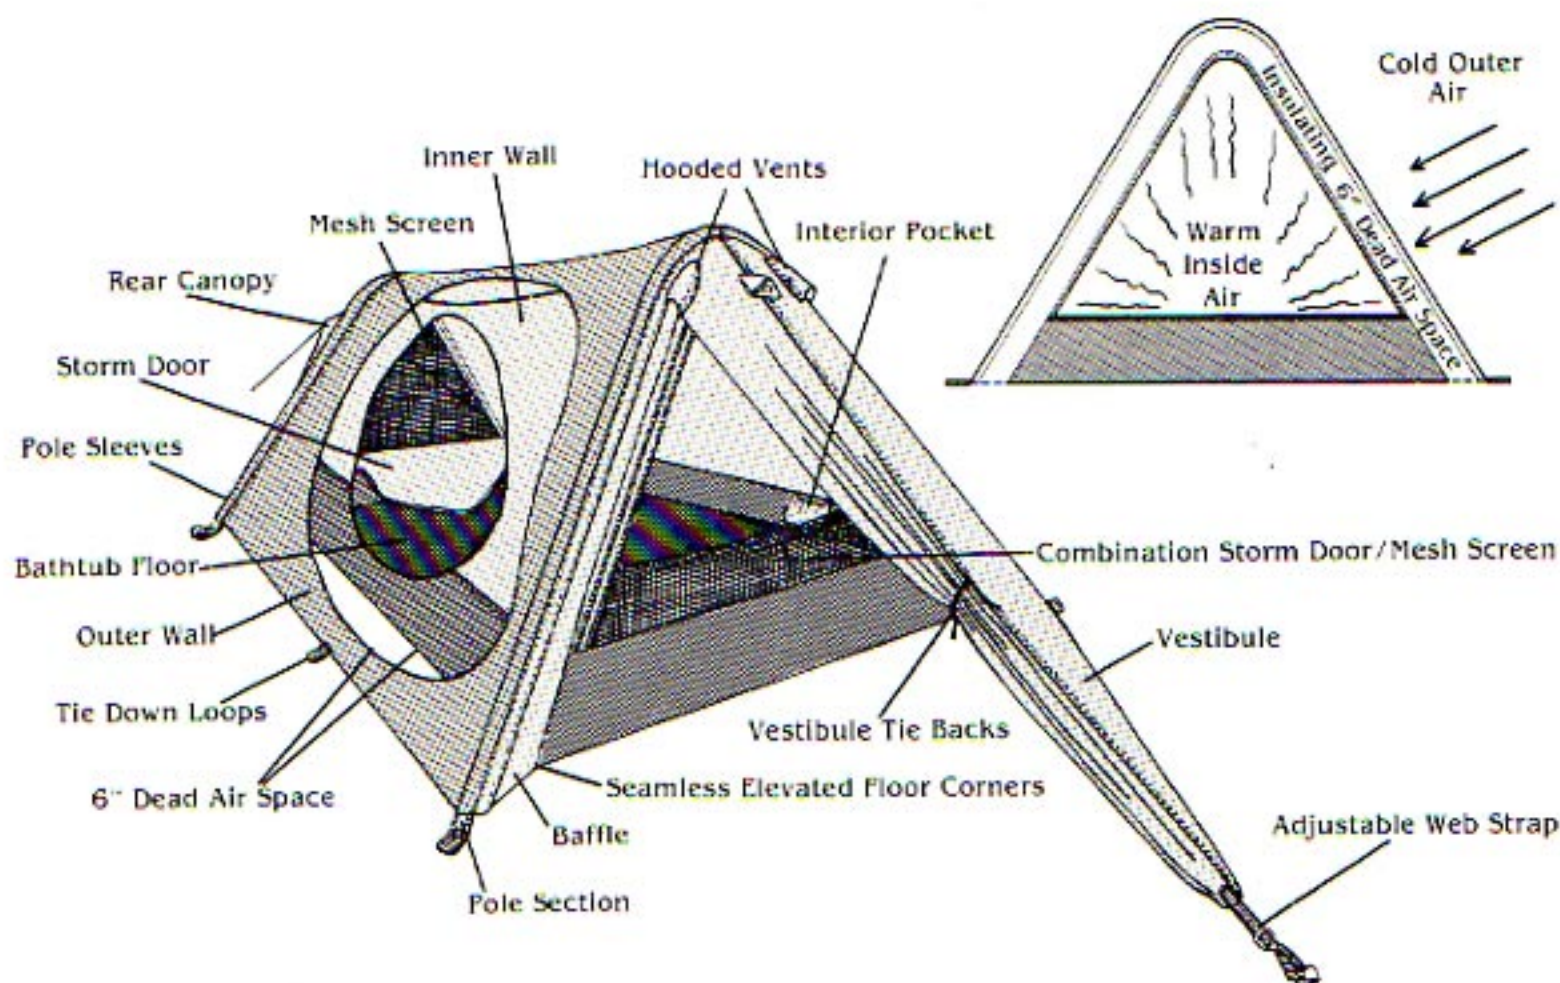

- Two person
 - Front vestibule and rear canopy
 - Weight: 8 lbs. 12 ozs.
 - Stuffed size 24" x 6" diameter
- Price: 295.00

C892-Lackawanna

- Two person
 - Snowflaps around entire perimeter
 - Front and rear vestibules
 - Weight: 8 lbs. 15 ozs.
 - Stuffed size 24" x 6" diameter
- Price: 375.00

* Note: Special order - inquire regarding delivery

SLEEPING BAGS

We believe that we make the finest synthetic sleeping bags in the world. Independent tests in the United States and Canada have consistently rated our bags number one.

Our Design: Our modified mummy bags are designed for optimal insulating efficiency with minimal bulk and weight. To eliminate cold spots, we combine differential cut and offset quilting with an innovative Cannondale triple-layer "sandwich" construction (see diagram). We accomplish this by first sewing the outer shell to a layer of Dacron® Hollofil® II insulation and then sewing the inner shell to yet another layer of insulation. A third "high loft" layer of insulation is sandwiched between the two layers and edge-stabilized at each end, and along both sides of the zipper. This middle layer maintains loft completely around the bag — a feature that is missing in most other bags.

Large offset draft tubes back up the snag-proof zipper and continue beyond to form a wrap around collar to eliminate drafts. The collar can be drawn snugly around your neck and secured from within by a cord-lock, further capturing body heat. A two-way separating YKK coil zipper (#8) allows you to ventilate from the bottom as well as the top. Right and left bags can be zipped together to form a double sleeper.

Our Material: The outer shell is 1.9 oz. ripstop nylon chosen for its lightness and tear resistance. The inner shell is soft Antron® Nylon.

Our Insulation: We've chosen Dacron® Hollofil® II insulation because it has the best weight/insulation ratio. Unlike the more conventional solid-core fiber which provides at least 15% more loft (thickness) per unit weight. This means more dead air which in turn means more insulating value. Even if wet, Dacron® Hollofil® II insulation will continue to trap warmth and won't shift or clump.

Two sizes available: Regular (6') Long (6' 6")

S804/S805 — Blue Ridge Rider

To make this extremely light-weight sleeping bag, we've eliminated the collar and used a two-layer construction. It is rated to 25°F. Stuff sack size: 8¼" x 12½" (S805S)

D001 / D002 — Doggie Bag

These large, soft, comfortable beds will satisfy any pooch. They are constructed of 80/20 cloth with fiber-fill stuffing. The filling is non-allergenic, will not retain odors, and will keep its fluffiness even with repeated use. The zippered cover allows removal of fill for easy washing and drying.

Available in two sizes: 35" and 45" diameter
Colors: Green, Camel

Price: (45") D001 39.50
(35") D002 35.00

FRAMEPACK

C882—Winan's Camel

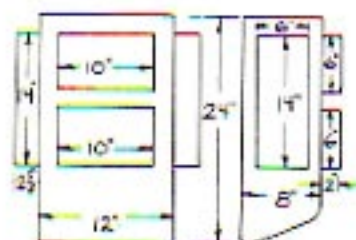

The new Winan's Camel uses our unique internal/external frame support system to combine the best of internal and external frame packs. It has the strength and load capabilities of an external frame pack, yet gives you the comfort and stability of an internal frame pack. The pack rides comfortably close to your back, (the further from your body, the harder to support the weight) with less leverage and side sway. Every element in the suspension system can be adjusted to custom fit your build and the load you're carrying.

The frame is formed from one piece of strong, light 7/8" aluminum alloy tubing. We do not weld because the weld can be a potential failure point. The two platforms created by the frame can be used for supporting heavier, bulky items. The upper platform, molded of glass-fiber reinforced polypropylene supports a secure platform for tents, sleeping bags, etc., and also helps shed rain. It supports a large internal pocket and protects fragile items. The lower shelf is formed by the frame extending below the bag. It supports the waist belt system, and provides a lashing area for sleeping bags and other bulky items.

The Winan's Camel is made of rugged, waterproof urethane-coated nylon Cordura fabric. We use double-stitching, bartacks, and leather reinforcements at all stress points.

The front-loading design of this pack allows unimpeded access to the entire contents of the pack. The unique design, with its many compartments, makes it ideal for use as luggage.

The front-loading design of this pack allows unimpeded access to the entire contents of the pack. The unique design, with its many compartments, makes it ideal for use as luggage.

Other features of this pack include:

- Internal zippered pocket
- Two large front pockets
- Vertical zippered side pockets
- Removeable belt pocket
 - Two sets of 40" tie downs (top and bottom)
 - Six leather tie down patches
 - Load compressor straps
 - Removeable sternum strap
 - Anti-sway straps
 - Fastex Quick Release buckles
- Lifting handle
- Ice axe loop
- Ski slots

Color: Camel

Weight: 6 lbs. 2 oz.

Capacity: Approx. 4,300 cu. in.

Fits persons 5' to 6' 8"

Fits waist 20" to 45"

Price: 175.00

SOFTPACKS

All Cannondale daypacks have our unique patented polyfoam liner. A Cannondale first, the polyfoam liner maintains the pack's shape while cushioning the contents and spreading the weight load evenly. It relieves stress on stitching and prevents wear and tear on inside fabric.

C847 / C848—Fannypacks

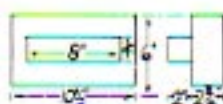

C847

Weight: 9.5 oz.
Capacity: 334 cu.in.
Price: 19.95

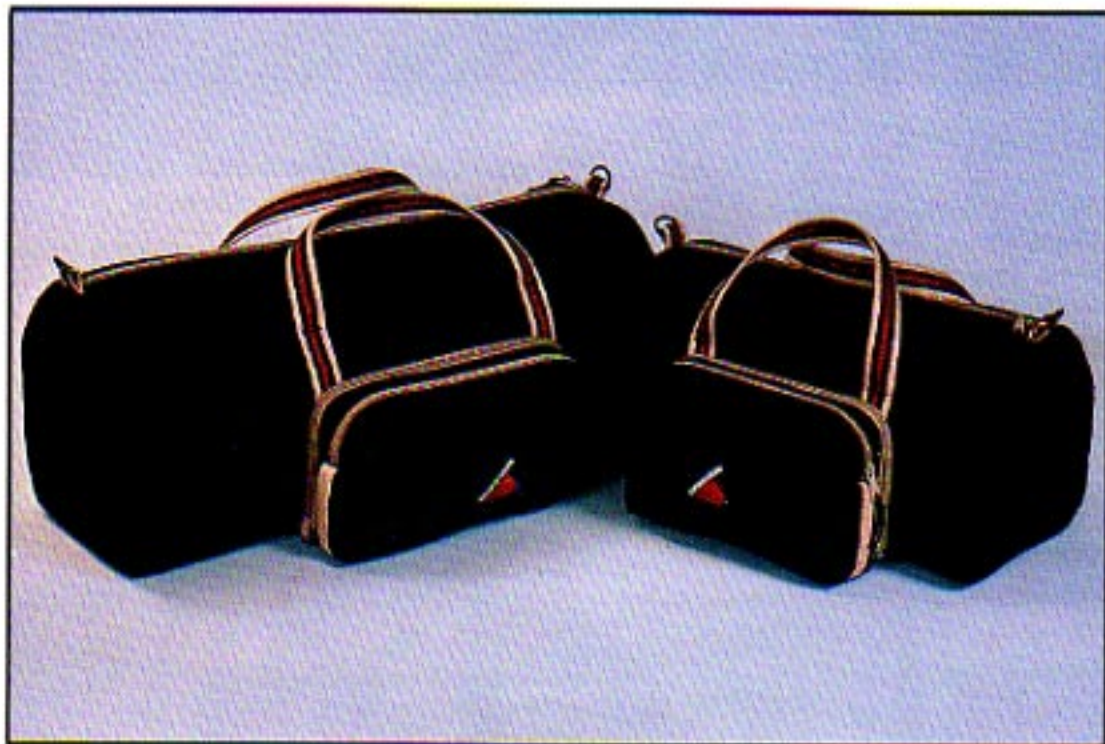

C848

Weight: 8 oz.
Capacity: 237 cu.in.
Price: 16.95

Constructed of waterproof, nylon Cordura with leather appointments, the Fannypack's main compartment has a sewn-in foam pad to protect your back and cushion the contents. They also feature bartacked interior elastic compartments for securing fragile items (camera, lenses, etc.). The outer pocket is perfect for smaller items (wax, glasses, keys, etc.). There are lace loops through zipper pulls for easy operation. The web waistbelt features Fastex Quick Release buckles.

Two sizes available. Small (C848) Large (C847)
Colors: Red & Blue

C904—7" / C905—15"
Gaiters

Essential gear for any cross-country skier, climber, and/or hiker, Gaiters keep your feet warm and dry in any weather. Gaiters are constructed of our rugged 80/20 cloth and are contoured for proper fit. They have sewn-in elastic ankle bands, freeze-resistant nylon coil zippers up the back, easy speed lace-hooks, and nylon cord ties.

Colors: Blue, Camel
Price: (C904) 12.95
(C905) 15.95

C103/C104 — Duffles

These rugged bags are made from waterproof, urethane-coated Cordura. They have our patented polyfoam liners to maintain their shape and cushion the contents. One unique feature is a removable zippered case for personal or small articles which we attach to the outside of each duffel with a zipper. The strong, all-cotton web handles are reinforced with bartacks at all stress points. Adjustable shoulder straps, made from the same materials as the handles, attach to sturdy black D-rings. The nylon coil zippers have generous lace loops through the pulls for easy operation.

Available in two sizes: Small (C103)
Large (C104)

Color: Ebony
Price: C103 26.50
C104 34.50

INSULATED CLOTHING

Sontique*

All the new thin-fill insulations are designed to provide warmth without bulk, to be slim, fashionable, and yet functional. They may be all you need when engaged in active sports. Dupont's Sontique* of 100% Dacron® 66 polyester is the best-engineered of these insulators.

Sontique* gets its high insulation value by a thin layer of air bound by friction around every fiber surface. Since air is bound to every fiber surface, an increase in insulation can be achieved by making the fibers finer, thus increasing the number of fibers and their total surface area.

SONTIQUE*
Dacron® 66 polyester
STYLING INSULATOR

Sontique* drapes beautifully and can be washed or dry cleaned. No other thin fill keeps you warmer.

912 Mountain Parka

- Insulation: Sontique*
- Outer Shell: 80/20 cloth
- Fully lined with Antron® Nylon
- Four snapped cargo pockets
- Two insulated handwarmer pockets
- Draft flap with snaps
- Stretch knit storm cuffs
- Elastic drawstring with cord-locks at waist
- Permanent hood
- Two-way separating YKK coil zipper

Colors: Blue, Camel, Green

Price: 95.00

These classic Cannondale garments are designed and manufactured to give years of fashionable, functional use.

We use a cloth made from 80% polyester and 20% cotton for the outer shell of every garment. Unlike many blends, our 80/20 cloth is an integral mix of its components, with each fiber pre-blended before being woven. The resulting tight weave provides a durable fabric that is not only resistant to both wind and water but is also breathable. All of our clothing is styled in both male and female sizing to assure a perfect fit. The accompanying size chart applies to all our insulated clothing on the following pages.

	MALE	FEMALE
P	30-32	4-6
S	34-36	8-10
M	38-40	12-14
L	42-44	16-18
X	46-48	

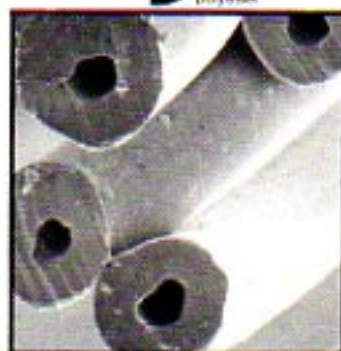

INSULATED CLOTHING

Dacron® Hollofil® II is more economical than down. Garments filled with Dacron® Hollofil® II are easy to care for. Should they puncture or tear, battings of Dacron® Hollofil® II will not leak as down will. Battings of Dacron® Hollofil® II retain loft even when damp or wet, unlike down which loses essentially all insulating value.

Insulation uses dead air space to minimize loss of heat from the body and prevent cold air from coming in. The thicker the dead air space, the better the insulation. Dacron® Hollofil® II uses a revolutionary approach to creating more dead air—a hollow core which runs through each fiber. These fibers are larger in diameter than solid polyester fibers of equal weight. Battings prepared from these hollow core fibers have at least 15% more loft per unit weight than battings prepared from conventional solid polyesters, and hence insulate better. It is important to remember that with insulation, loft or thickness is more important than weight. Dacron® Hollofil® II gives you the best warmth to weight ratio in the industry.

BICYCLE

BZT-Zippered Cycle Shirt

Our modified version of the traditional cycle racing shirt has a zippered front and rib-knit collar. . . both in a contrasting color to the shirt. These 100% cotton knits also feature an extra long cut hemmed sleeves and an embroidered logo.

Colors: Red, Yellow, Green, Blue

Size: **MBZT** — (Male) S, M, L, X

FBZT — (Female) S, M, L

Price: 16.95

BPT—Polo Shirt

Our polo-style shirt is made of 100% cotton. This good looking pull-over has a four button placket front, embroidered logo and hemmed sleeves. Both mens and ladies shirts are cut extra long to stay tucked in no matter how active you are.

Colors: Red, Yellow, Green, Blue

Sizes: **MBPT** (Male) S, M, L, X

FBPT (Female) S, M, L

Price: 22.50

CS—Cycling Shorts

Our cycling shorts are designed to combine comfort and function with great styling. They are made of a durable 50/50 blend of cotton and polyester. Features include: Saddle cut sewn in fleece crotch, elastic back, snap waist, zippered fly and side leg cargo pockets with snap closure. (Mens shorts have gusseted leg pockets while women's have flat pockets for trim styling). The legs are cut full with side vents to assure maximum leg movement without constriction. Suitable for any active or leisure wear, these shorts coordinate with all of our jackets and shirts.

Colors: Blue, Camel

Sizes: Male (**MCS**) — 28,30,32,34,36,38,40

Female (**FCS**) — 6,8,10,12,14,16

Price: 29.50

CLOTHING *by cannondale*

BTT-T-Shirt

Made of 100% cotton, our T-Shirts are available in both mens and ladies styling.

Mens T-Shirts are a traditional T-Shirt cut (with longer length in both shirt and sleeve) and have a ribbed-knit crew neckline and hemmed sleeves.

Ladies T-Shirts have a French cut styling with a ribbed-knit scoop neckline and short cap sleeves.

Colors: Red, Yellow, Green, Blue

Size: **MBTT** — (Male) S, M, L, X

FBTT — (Female) S, M, L

Price: 12.95

916-Tahawus

This lightweight water repellant wind shirt is stylish, simple and great all year round. Made of our durable 80/20 cloth, it features a partial front zipper, contrasting storm knit cuffs, collar and waistband and a large kangaroo styled handwarmer pocket behind a roomy front zippered cargo pocket. Raglan sleeves allow maximum maneuverability.

Colors: Camel, Blue, Red

Sizes: Male — P, S, M, L, X

Female — P, S, M, L

Price: 39.50

913—Champlain

This versatile shell jacket is beautifully tailored and constructed of 80/20 cloth. It is lightweight and water repellant. Other features include: large front pockets, raglan sleeves, contrasting storm knit cuffs, collar, and waistband and a full length YKK zipper.

Colors: Camel, Blue, Red

Sizes: Male — P, S, M, L, X

Female — P, S, M, L

Price: 45.00

C918/C919 — Rain Suit

This versatile jacket is fashioned of soft lightweight coated Antron® Nylon. The bright yellow color is highly visible and together with the pants provide a waterproof suit to cycle or watch a ballgame in. The sleeves are long and have elastic cuffs. There are vents on the front and back for proper ventilation and a zippered front closure. The adjustable hood accommodates a helmet and the strap takes up the slack when a helmet is not in use.

C918
Rain Jacket

Color: Yellow
Sizes: (uni-sex) P, S, M, L, X
Price: 39.50

C917—Rain Poncho

Our rain poncho is made of coated Antron® nylon and is designed to keep every cyclist dry. The contoured hood can accommodate a bike helmet, and an adjusting strap takes up the slack when a helmet is not in use. A drawstring with cordlocks pulls the hood snugly around the face. The visor is stiffened to prevent interference with one's vision. Leg and thumb straps enable the cyclist to keep the poncho securely in place while riding.

Color: Yellow
Sizes: Medium, Large
Price: 34.50

The pants are made of the same cloth as the jacket and have an elastic waistband. The legs have vertical zipper closures for riding and when unzipped will hang straight. This rainsuit is excellent for cycle riding but can be utilized when walking, hiking or many other outdoor activities.

C919
Rain Pants

Color: Yellow
Sizes: (uni-sex) P, S, M, L, X
Price: 22.50

YUKON

Whitehorse
Bicycle Repair Center

From the start, Cannondale has been an innovator in bicycle touring equipment. We introduced the first bicycle trailer on the market, patented polyfoam liners, three-dimensional pannier frames, warning reflectors on all bicycle bags and a torsional trailer hitch. Most recently, we developed a revolutionary hook-and-loop-attached water bottle and the first four-point connection, fully adjustable carrier rack.

All Cannondale bags are made of either urethane-coated, nylon Cordura or urethane-coated, nylon pack cloth. Both fabrics are waterproof, have a high resistance to abrasion, tremendous tear strength, and resist rot or mildew. All bags have double-stitching and bartacking at all stress areas.

Standard features include: sturdy YKK coil zippers, warning reflectors, rain flaps, nylon-web pull tabs for easy zipper operation, and specially designed hardware for easy attachment and removal from the bike. All packs can be conveniently carried when off the bike by means of web handles and/or adjustable shoulder straps.

HANDLEBAR BAGS

(B037 shown)

Whether for an extended tour or simply a days pleasure ride, Cannondale has a handlebar bag to suit your needs. These bags are versatile and attractive as well as functional.

Included with each bag is our coated steel cantilevered frame and adjustable shocks cords which support and stabilize the bag. Standard features include: nylon coil zippers, nylon web handle pull tabs for easy zipper operation, rain flaps, warning reflectors, nylon locking fasteners, and stainless steel hooks. All necessary mounting hardware is included.

An adjustable shoulder strap, included with most bags, makes it extremely versatile for use as a camera bag or off bike luggage.

B037 TRESTLE

- Nylon Cordura
- Wrap around zippered main compartment with double pulls
- Leather frame channels
- Warning reflector
- Adjustable shoulder strap
- Snap-on zippered map case
- Two Cordura side pockets
- External top, front, and back pockets
- Two interior pockets
- Interior elastic compartments

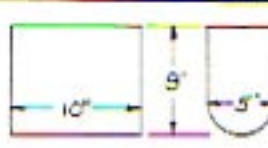

Capacity: 675 cu. in.
Weight: 1 lb. 10 oz.
Colors: Red, Blue, Silver, and Ebony
Price: 49.50

B027 CHUGGER

- Nylon pack cloth
- Wrap around zippered main compartment with double pulls
- Leather frame channels
- Warning reflector
- Adjustable shoulder strap
- Snap-on zippered map case
- Two Cordura side pockets
- External top zippered pocket

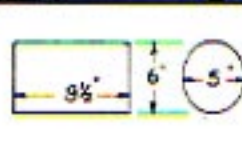

Capacity: 525 cu. in.
Weight: 1 lb. 6 oz.
Colors: Red, Blue, and Yellow
Price: 34.50

B017 CASE

- Nylon Pack Cloth
- Wrap around zippered main compartment with double pulls
- Nylon web frame channels
- Warning reflector
- Adjustable shoulder strap
- Snap-on zippered map case

Capacity: 420 cu. in.
Weight: 1 lb. 4 oz.
Colors: Red, Blue, and Yellow
Price: 19.95

B020 ROUNDHOUSE

- Nylon Pack Cloth
- Main compartment with single zipper pull
- Nylon web frames channels
- Warning reflector
- Web handle

Capacity: 230 cu. in.
Weight: 16 oz.
Colors: Red, Blue, and Yellow
Price: 14.95

SEAT/RACK PACKS

- Nylon pack cloth
- Polyfoam liner
- Single zippered main compartment

- Warning reflector
- Cam-lock molded nylon buckle seat fastener
- Can be used as handlebar bag

Capacity: 215 cu. in.
Weight: 6 oz.
Colors: Red, Yellow, and Blue

B021 TOOT Price: 9.95

- Nylon Cordura
- Polyfoam liner
- Single main compartment
- Wrap around, double-pull zipper

- Warning reflector
- Cam-lock molded nylon buckle seat fastener
- Strap and buckle fasteners swivel to accommodate saddle wires
- Can be used as handlebar bag

Capacity: 300 cu. in.
Weight: 8 oz.
Colors: Red, Blue, Silver and Ebony

B031 SIGNAL Price: 14.95

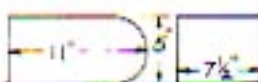

- Nylon Cordura
- Wrap around zippered main compartment
- Two side flat pockets

- Mounting strap attaches to saddle wires
- Hook and loop strap wraps around corner of top tube and seat tube eliminating sway.

Capacity: 70 cu. in.
Weight: 3 oz.
Colors: Red, Blue, Silver and Ebony

B026 TIRE SOCK Price: 9.95

- Nylon pack cloth (B045)
- Nylon Cordura (B046)
- Polyfoam liner
- Single main compartment

- Warning reflector
- Double-pull, wrap around zipper
- Adjustable rack fasteners
- Web handle

B045

Weight: 4 oz.
Colors: Red, Blue, and Yellow

B046 (not shown)
400 cu. in.
6 oz.
Red, Blue, Silver, and Ebony

RACK PACKS Price: 14.95

Price: 16.95

PANNIERS

Panniers are essential for extended bicycle touring. They should be lightweight, durable and provide an easy access to your gear. While Cannondale panniers have these qualities, they also have one that sets them apart: a unique pannier support frame.

These frames are made of a highly advanced, glass-reinforced nylon resin. They're designed to combine high-impact strength with excellent all-weather temperature resistance and provide even distribution and load stabilization. An important side benefit of these frames is a substantially increased product life, due to reduction of load stress on seams and zippers.

Standard features include drop-out mounts, heavy-duty spring-suspension, aluminum mounting hooks, warning reflectors, nylon web handles, and an adjustable shoulder strap. All bags can be attached together to form a single piece of luggage.

Cannondale panniers fit not only our own carrier rack, but also any other rack on the market.

**B041 — Overlands
Rear Panniers**

- Nylon Cordura
- Zippered main compartment with double zipper pulls
- Eight external pockets per set
- Rear warning reflectors

Per set

BICYCLE ACCESSORIES

BG70 — Cycling Gloves

Cannondale cycling gloves are handmade in Pennsylvania. We hand-crochet our 100% cotton back to precise patterns which assure the fit you want.

We combine top-quality supple glove leather with fewer seams and carefully designed padding (including the thumb area) to give you extra protection and all-day comfort. The wrist closures, trimmed in soft, durable leather, will not stretch out and have long-lasting adjustable hook and loop fasteners.

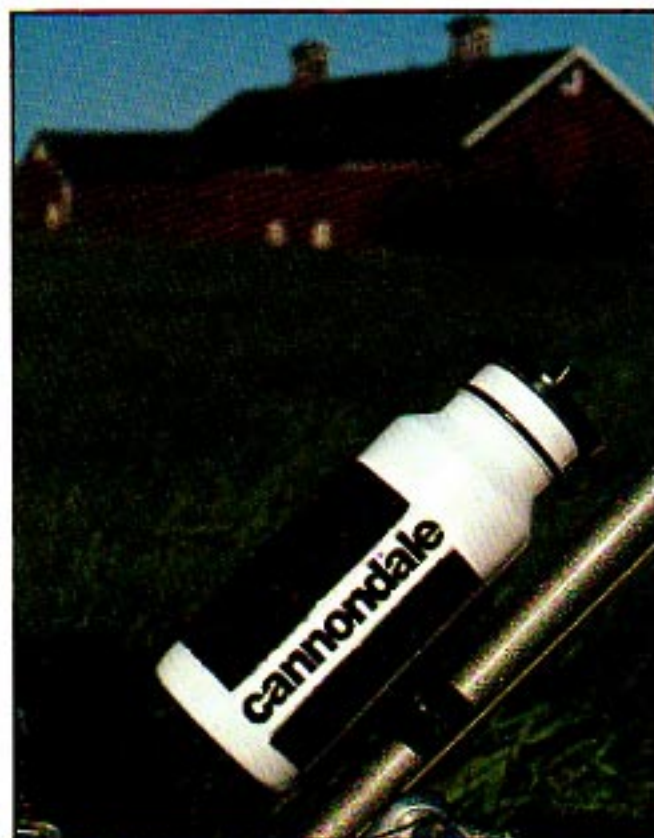

Price: \$29.50

Determine your size by measuring in inches your right hand around the knuckles with hand flat. Do not include thumb.

P	6 - 6½
S	6½ - 7½
M	7½ - 8
L	8 - 9
X	9 - 10
J	10 - 10½

BH20 — Water Bottle

The Cannondale water bottle is more convenient than any other water bottle. Don't fight a cage or align a dovetail! Simply place the loop-covered bottle on the hook-covered base. To remove the bottle, just pick it up. The bottle is large, holding 24 ounces, and has an exceptionally wide mouth, allowing you to mix powdered drinks or add ice. You can easily open and close its drinking spout with your mouth. The base is injection-molded DuPont Zytel S.T., a tough, weather-resistant material which will not mar your bicycle. The bottle is FDA-approved polyethelene.

Our bottles are simple to install, requiring a single screw. A spacer is included for bicycles with smaller diameter downtubes. (Mount only on downtube.) We even supply the wrench.

Weight: 3 oz.

Price: \$9.95

BR80—Front Carrier Rack

Everything that makes our rear carrier rack so tough goes into this rack. It also has an extruded aluminum-alloy deck, bend-free legs, and proper triangulation. It is entirely mechanically assembled with stainless steel fasteners.

You'll also find this rack allows adequate clearance for sidepull and center-pull brake mechanisms and quick releases. The heavy-gauge, stainless-steel mounting bracket allows the fork to flex without straining the rack. A reflector mounting bracket, spacers for fork clearance, an allen wrench and all mounting hardware are included. The rack comes fully assembled.

Weight: 13 oz.

Colors: Black anodized (BR80E)
Silver anodized (BR80S)

Price: (BR80E) 26.50
(BR80S) 24.50

BR81—Rear Carrier Rack

Finally there is a fully adjustable rack with four point connection for maximum strength and stability. It derives its ruggedness from an extruded aluminum alloy deck, bend-free legs and proper triangulation. It's designed to handle heavy loads and high mileage. It's entirely mechanically assembled, using stainless steel fasteners which will speed repairs in situations where cyclists with welded racks would be stranded. We include a bracket for mounting the bike's original reflector which still allows full use of the deck. We also include all mounting hardware (pannier hooks, non-marring seat stay clamps, all screws, nuts, and an allen wrench). No assembly is required.

Weight: 17 oz.

Colors: Black anodized (BR81E)
Silver anodized (BR81S)

Price: (BR81E) 29.50
(BR81S) 27.50

H-100 — Cycling Hats

Our new cycling hats are attractive and lightweight. They are made of durable 80/20 cloth with an elastic back and a stiffened bill for plenty of shade. A colorful red, white, and blue ribbon runs down the center with an embroidered Cannondale logo on each side. One size fits all.

Colors: Red, White, Blue
Price: 5.98

BICYCLE TRAILER

B003 — Bugger III

From the manufacturer of the original lightweight bicycle trailer comes Cannondale's Bugger III. It'll increase the number of ways you can use your bike, which means fewer trips by car and greater gasoline and maintenance savings. While designed primarily to carry children, the Bugger III can accommodate your groceries, camping gear, picnic baskets, or whatever you choose to put in it. It's built to give you and everyone in your family a lifetime of use.

It gets much of its durability from rugged polyethylene. An aerodynamic shape and low center of gravity assure carrying stability, while two 20" wheels with pneumatic tires and sealed ball bearings deliver a reliable, smooth ride.

No tools are needed to attach it to your bicycle, thanks to the patented polypropylene and stainless steel hitch. The Bugger III is the only bicycle trailer with this torsional hitch, which keeps the trailer wheels firmly on the road when cornering or striking a bump.

You can pull up to 80 pounds in the Bugger III without significant extra effort. One or two children can be comfortably secured in the trailer's molded seat, using waist-shoulder combination straps which feature child-resistant buckles.

Weight: 25 lbs.

Price: 199.50

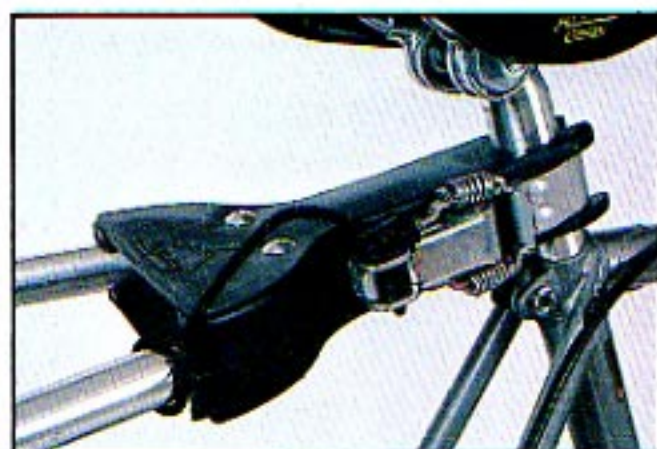

A018 — Tonneau Cover

Increase the usefulness of your Bugger III even more with this waterproof Tonneau Cover. It is constructed of urethane-coated, nylon pack cloth and fastens snugly over the Bugger III. A strip of elastic holds it in place, and four adjustable buckles secure it. Two Reflexite® reflectors are stitched on for added visibility.

Colors: Red, Blue, and Yellow

Weight: 9 oz.

Price: 19.95

A010—Hitch

The Bugger III's patented Hitch is made of molded polypropylene and stainless steel. You can attach it to any bicycle seat post quickly and securely without tools. The design, construction, and material used dampen road shock to provide worry-free maneuverability and load stabilization. A steel toggle latch (resembling a ski boot buckle) secures the hitch. The hitch may be ordered separately for installation on any previous model Cannondale Bugger.

Price: 18.95
