

THE CYCLESMITHS

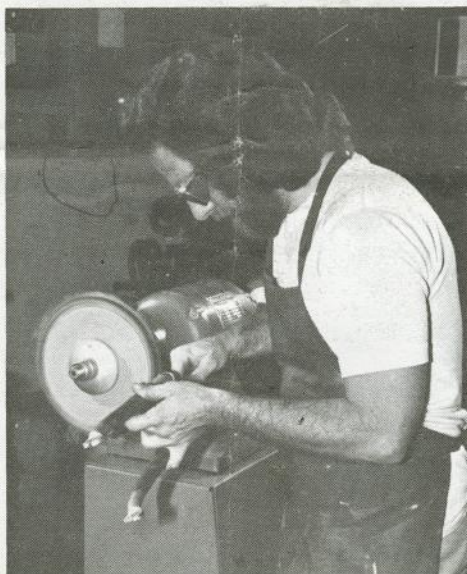

The Cyclesmiths are a dedicated group of professionals whose commitment to quality and timely delivery assure you complete satisfaction.

Our list of satisfied customers include Signor Faliero Masi, whose dedication to perfection is known world wide; acclaims our work the finest in the world and the only work permitted to adorn his custom quality cycles produced in the United States.

The late Mario Confente, a renowned custom builder and innovator, accorded our work his highest regard and fully agreed that our work is indeed the finest in the world. Shouldn't you take the time to find out how affordable the very best really is?

Jim Allen is the cycling industries' most accomplished painter. For 10 years Jim has worked to perfect the art of applying long lasting flawless finishes.

He has worked closely with the paint chemists at P.P.G. to gain the knowledge necessary to correctly apply the lustrous paint finishes and properly match the application of different brands to allow a wide variety of finishes.

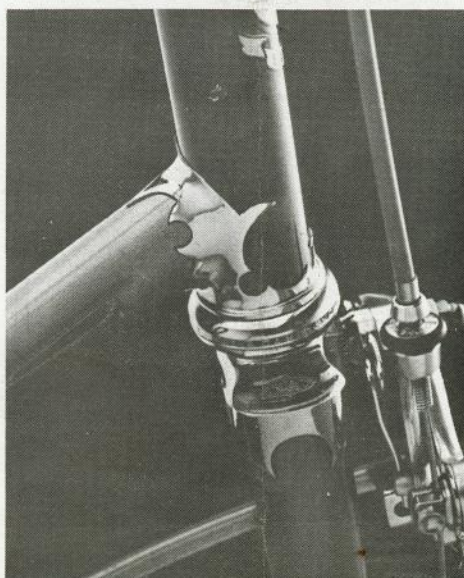

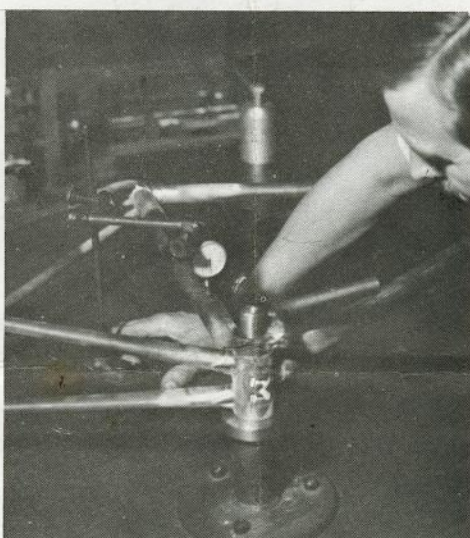

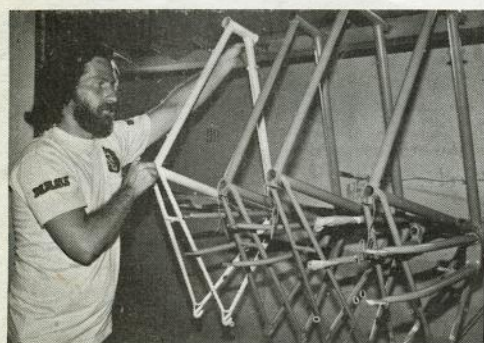

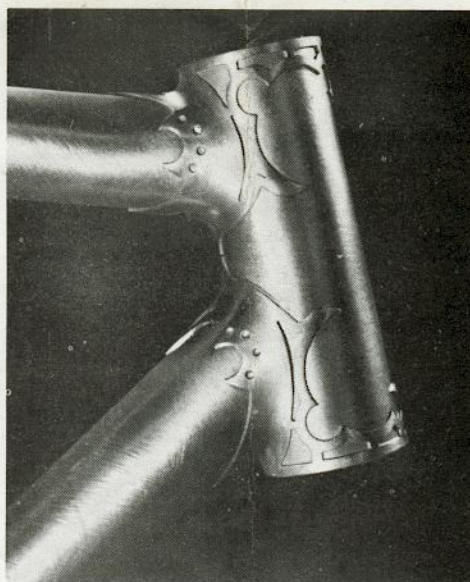

Internationally acclaimed Brian Baylis can produce the most uniquely designed cycles to fit your desire for a truly custom machine. Brian's expertise in plating (chrome and precious metals), anodizing and intricate lugwork can prepare for you a functional and exquisite work of art.

Brian served his apprenticeship under Faliero Masi and has since added the skill necessary to produce cycles to your most exotic request.

Ted Kirkbride has thirty years of cycling experience, from a member of the U.S. National team to coaching National Champion cyclists.

If you require a custom frameset, Ted can custom fit you to a hand-made Kirkbride Bros. frame, to perfectly compliment your needs.

Dave Tesch has worked for one of the largest production manufacturers of lightweight cycles in the United States. Dave manufactures for a select few his own unique brand of custom cycle, and has brought that experience to The Cyclesmiths. At the Cyclesmith you will find dedicated professionals eager to help you regain the respect that has often times been lost through shoddy workmanship and disrespect for the customers wishes. Our staff has over 50 years experience on the retail bicycle sales level; we understand the needs of the bicycle shop, framebuilder, and importer/distributor to a degree that will unquestionably benefit you.

THE CYCLESMTHS SERVICES

We are committed to offering every service at optimum speed so you do not experience the discomfort of waiting for slow moving sub-contractors to finish specialized work.

Our complete line of services included, but is not limited to: painting to your specifications, custom color matching, braze-on of standard or custom pieces, custom decal production, custom polishing and plating (chrome and precious metals), anodizing, chemical etching, pantograph engraving, hand-cut lugwork, custom machine work and threading, certified manufacturing of Reynolds 753 framesets and complete production runs of stock framesets, plus a complete line of custom fabricated hand finished framesets. If your company should require its own label cycles, we have the resources and manpower to produce them.

ABOUT OUR FACILITIES

Over the past ten years we have endeavored to provide the finest facilities and materials for our customers.

Our spacious filtered spray booth was designed to provide flawless paint applications to insure complete customer satisfaction. Our painters select from the best paints available to meet your specifications of surface protection, durability, and appearance. Frames are chemically stripped and garnet blasted to assure maximum adhesion of plating and paint. We use micro-adjusting frame jigs and a precision ground granite surface plate to insure exacting alignment of new frames and repairs. We intend to demonstrate that our attention to details will guarantee our customers consistent high quality services at affordable prices.
