

PEUGEOT

SPORT BIKES '74

You certainly know the make PEUGEOT from the automobile world. It is this very same manufacturer that has built also bicycles for over 100 years and has succeeded in securing a major share of the market in lightweight trouble free bicycles. This is the result of many years' research and precision as is reflected also in the known PEUGEOT automobiles.

Not less than 91.000 skilled PEUGEOT employees continue to look after the quality of the PEUGEOT make. Every year the quality of the PEUGEOT bikes undergo the most severe riding conditions during the greatest sporting spectacle of the world: The Tour de France where all top cyclists come together to try out their machine under the roughest road and weather conditions you can imagine.

A PEUGEOT bike, therefore, is not just a bicycle. When champions choose PEUGEOT, why would you be satisfied with less?
