The roster of past and present Peugeot racers reads like a Who's Who for the sport of cycling: Eddy Merckx, Stephen Roche, Betsy King, Gregor Braun, Betsy Davis, Ferdinand Bracke, Bernard Thevenet, Phil Anderson, Robert Millar, and Pascal Simon all had beginnings on Peugeot bicycles. From the very start, Cycles Peugeot has been an ardent supporter of the sport of cycling, with at least ten Tour de France, and twenty World Championship victories to its credit. Today, riders in France and around the world race with the Peugeot Jersey on the road, and in the mountains, defending our claim to "The Ultimate Cycling Machine". They prove daily that Peugeot bicycles are crafted with the quality and reliability that competitive cycling demands.

But you don't have to be a professional racer to appreciate quality. Since 1882 when the first Peugeot bicycle was hand-crafted, new models have been added and improved to offer a high quality bicycle to a large and varied audience. From the youngest children on their first "two-wheelers", to grandparents on their boardwalk "beach cruisers", Peugeot has a bike to meet your needs. No matter which bike you choose, you can expect professional

quality, backed by our Warranty on frames and components.

In France, the Peugeot factories maintain an incredible level of quality in production. Each bicycle is composed of over 1,500 component parts, which, during manufacturing, must undergo 200 rigorous tests to insure their quality. Patented brazing processes and specialized tubing, ensure riders of a sturdy, lightweight frame. Automated processes apply a coat of primer and two "wet on wet" coats of paint to the bicycles, while the decals are applied by hand. All bikes are given a clear overcoat varnish that provides an excellent finish and long-lasting protection.

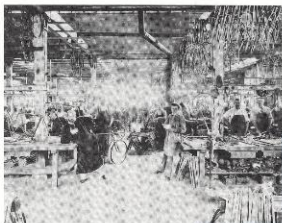

In the United States, Peugeot bicycles are sold through a national network of dealers who have been authorized to carry our products. At an Authorized Peugeot Dealer, you can expect the service, quality, and consideration you deserve. In a recent survey of professional bicycle dealers conducted by Bicycle Dealer Showcase (a trade magazine), Peugeot was named the Number Two National Distributor in the United States. For you as a consumer, this means that the shop carrying our product truly believes in our quality, service, and support. And they aren't the only ones willing to admit it, either...

If you picked up a copy of Bicycle Guide magazine this past July, you must have recognized the familiar Peugeot Checkerboard as Deborah Shumway, a rider for the Peugeot team graced the cover, while the staff tested our Triathlon inside. But don't take our word for it, take theirs... "Peugeot has been anything but coy in naming its Shimano 105-equipped model. It's called the Triathlon, and it has a lot more going for it than its popularity among heavy-breathing people in modified bathing suits."...The

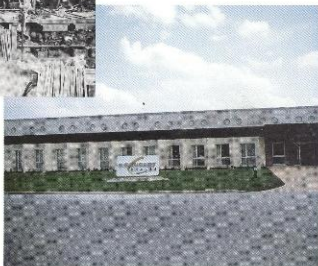

Triathlon was commended as being the lightest of ten bikes tested in its class, as well as one of the most comfortable to ride..."The Triathlon simply does what it's asked to with admirable *savoir faire*..."All in all, the Peugeot is one classy bike."

In case you hadn't realized it, Peugeot has become a force to be reckoned with in the mountain bike market as well. Mountain Biking magazine, in their 1989 Sneak Preview issue, tested our Canyon Express. You really can't go wrong with a review entitled "PEUGEOT CANYON EXPRESS: Europe Meets the Far East to Produce a 'World Class' Mountain Bike!" (Their exclamation point, not ours.) Discussing our range of mountain bikes, they said: "The entire line is aimed at all levels of rider, and doesn't really miss filling in any holes..."Attention to detail has always been a Peugeot tradition, and they haven't stopped with the Canyon Express." When the Mountain Biking staff finished the road test, they admitted "We can't wait to see what Peugeot gives us for 1989!"

Well, the wait is over.

A. Sacerdoti
Alexandre Sacerdoti
Executive Vice President
Cycles Peugeot USA, Inc.

CARBON PRO

Since 1983, when we introduced our first generation 3 tube carbon fiber frame, Cycles Peugeot has been a leader in carbon fiber frame technology. The innovative spirit that defines Peugeot continues with this awesome display of composite technology. Peugeot, in collaboration with Zodiac, has produced an all carbon tubed frame with super lightness, strength, and rigidity, as compared to today's traditionally built racing frames.

After several years of research, and with the help of sophisticated computers, each tube has been designed for optimal performance in its particular application and placement within the frameset. For example, the carbon headtube is completely woven in one piece. The carbon fiber matrix was blended and formed for maximum strength. The carbon seat stays have been curved and designed to maintain constant strength and rigidity throughout the tube. Even the brake bridge is made of carbon fiber, designed and woven with regards to the stresses that occur during braking.

The aluminum frame components (drop-outs, bottom bracket shell, and seat cluster) are built with a special blending developed to integrate with the carbon tubes, resulting in one of the most efficient racing frames on the market.

The frame finish is also exceptional. The frame is fully varnished for superior fiber protection, and provides an incomparable blend of performance and functional elegance. This photo cannot capture this remarkable frameset's beauty. It must be seen to be believed!

ATHENA

Crank

Brake & Shift Levers

Peugeot and Campagnolo, both leaders in the cycling world, bring you the best cycling has to offer. Featuring a frame built of Columbus SLX tubing and the "Athena" gruppo with "Synchro" shifting, this bike reflects the state of the art in bicycling.

FRAME:	Columbus SLX fully lugged, double water bottle braze-ons, pump peg, chain rest, forged vertical dropouts	RIMS:	Mavic 190 Black
FORK:	Columbus forged dropouts, sloping crown	SPOKES:	Stainless Steel
HEADSET:	Campagnolo "Athena"	TIRES:	Michelin Hi Lite Comp 700 x 20C
HANDLE:	Atax alloy, engraved & anodized silver	FREE-WHEEL:	Sachs-Huret 7 speed
BAR:	Atax alloy, aero, anodized silver	DERAILLEURS:	Campagnolo "Athena" "Synchro"
STEM:	Atax alloy, aero, anodized silver	SADDLE:	Selle Italia Turbo
BRAKES:	Campagnolo "Athena"	SEATPOST:	Campagnolo "Athena", 180mm x 25.4mm
CRANK:	Campagnolo "Athena", 42 x 52, 170mm	COLOR:	Violet (V)
BB SET:	Campagnolo "Athena"	SIZES:	52cm, 54cm, 56cm, 58cm, 60cm, 62cm
PEDALS:	Campagnolo "Athena"	ACCESSORIES:	Deirin cable guide, rear spoke protector, chainstay protector, CPSC approved reflectors
CHAIN:	Socis		
HUBS:	Campagnolo "Athena" QR, 36H		

DEAUVILLE

Rear Derailleur

Brake & Shift Levers

The "Old World" quality of Reynolds 531 tubing and the "New Generation" of high tech, high performance Shimano Ultegra components meet to create a world class human-powered vehicle. Finishing touches include CTA alloy stem and bars, Wolber Alpine rims and a Selle Italia Mondialita saddle. Cycles Peugeot only builds the best!

FRAME:	Reynolds "531" fully lugged, double water bottle braz-ons, pump peg, chain rest, farged drop-outs	RIMS:	Wolber Alpine 700C

HUBS:	Atom alloy, small flange, sealed QR		

Rear Derailleur

Reynolds "501" frame construction accents this sleek racing bike; it truly has what it takes for the open road. The Shimano Exage crank and Sport LX SIS derailleurs provide a super shifting drive train. Performance touches include black anodized Rigida rims with stainless steel spokes, CTA alloy bars and stem, and Michelin Select tires. This package adds up to winning performance!

VERSAILLES

Brake with Fork

Nothing but quality! Beginning with its internally brazed HLE frame, you will see components such as Shimano SLR aero brakes, Rigid rims, sealed alloy QR hubs, a Selle Italia saddle, and Michelin Select tires. This racer is built for top speed in the fast lane.

FRAME:	HLE - Fastback - internally brazed, double water bottle braze-ons, chain rest	RIMS:	Rigid 700C 1320, black
		SPOKES:	Stainless Steel
		TIRES:	Michelin Select 700C

HEADSET:	Peugeot - black	DERAILLEURS:	Shimano 350 SIS
HANDLEBAR:	CTA alloy with groove	SADDLE:	Selle Italia Mondialita, white
STEM:	CTA alloy aero	SEATPOST:	Strong alloy micro adjust, 180mm x 24mm Black (NO) & Red (RV)
BRAKES:	Shimano 350 Linear, aero levers	SIZES:	50cm (19"), 54cm (21"), 57cm (23"), 60cm (24"), 62cm (25")
CRANK:	Shimano 350 42 x 52, 170mm	ACCESSORIES:	Christophe toeclips & straps, dolin cable guide, rear spoke protector, chainstay protector, CPSC approved reflectors
BB SET:	Shimano A450		
PEDALS:	CX502 Mallard		
CHAIN:	Sadis 1/2 x 3/32		
HUBS:	Mallard QR, sealed mechanism		

BORDEAUX

Shifter with Fork

The proper blend of European tradition and Oriental craftsmanship brings us this classic sport/racing bike. Power is transmitted via Shimano SIS "click-shifting" derailleurs, while the narrow high-pressure tires, alloy 700C rims, and rigid HLE Mangalloy frame will help keep you in front of the pack.

FRAME:	Peugeot HLE - Mangalloy - internally brazed, double water bottle braze-ons, chain rest	RIMS:	Alessi 700C, #416
SPOKES:	14 G	TIRES:	Swallow 700C Skin Wall, 700 x 25C
FORK:	Peugeot - Unicrown	FREE-WHEEL:	Shimano 6 Speed 'Z'
HEADSET:	Peugeot C.P.	DERAILLEURS:	Shimano 250 SIS
HANDLE-BAR:	CTA Alloy with groove	SADDLE:	Selle Italia Anatomic
STEM:	CTA Alloy	SEATPOST:	Strong alloy 180mm x 24.0mm
BRAKES:	Shimano A250-with aero levers	COLOR:	Arctic White (BL), Blue Lightning (BE)
CRANK:	Shimano 250 40 x 52, 170 mm	SIZES:	50cm (19"), 54cm (21"), 57cm (23"), 60cm (24"), 62cm (25")
BB SET:	Shimano 450	ACCESSORIES:	Christophe toeclips & straps, derail cable guide, rear spoke protector, chainstay protector, CPSC approved reflectors
PEDALS:	Lyotard 82		
CHAIN:	Sedis Sport		
HUBS:	Atom alloy, QR, sealed 36H		

X-COUNTRY

FRAME:	Peugeot Chro-moly triple-butted forged drop-outs, diagonal seat stays, chain hanger, cable guides	RIMS:	Alessa alloy 700C
FORK:	Chro-moly Unicrown with eyelets, forged drop-outs, carrier fittings	SPOKES:	14G
HEADSET:	Peugeot	TIRES:	IRC Cross Country, 700 x 35C
HANDLE-BAR:	ATB - flat bar, 580mm	FREE-WHEEL:	Shimano 14 x 32 6-speed
STEM:	HL- MTS 115G-1 Chro-moly	DERAILLEURS:	Shimano Exage Trail SIS
BRAKES:	Shimano Exage Trail cantilever front and rear	SADDLE:	Selle Royal
CRANK:	Shimano Exage Trail, 28 x 38 x 48 Biopace, 175mm	SEATPOST:	Alloy Micro-Adjust, 300mm
BB SET:	Shimano sealed	COLOR:	Jet Black (NO) (not shown)
PEDALS:	HTI P03 Chro-moly	SIZES:	51cm, 54cm, 57cm, 60cm
CHAIN:	1/2 x 3/32		
HUBS:	Maillard alloy 36H QR		

What do you get when you take a triple-butted chro-moly bicycle frame with quick handling road geometry, and add wide tires, wide ratio gearing, and flat ATB bars? The fastest ATB you have ever seen! Utilizing Shimano SIS "click-shifting" derailleurs, a black Uniglide drive chain, 6 speed Shimano freewheel, and a triple Biopace crankset, you can apply maximum power to the ground for quick starts and continuous cruising. The X-Country concave alloy rims stay round and true under the worst conditions, while the 700 x 35C tires are wide enough to traverse city streets or dirt trails without being big "balloon" tires that add weight and rolling resistance. A host of additional features round out this exquisite ATB.

HLE TUBING and INTERNAL BRAZING

While "Haute Limite Elastique" may be new to your vocabulary, "HLE" tubing has been in ours for years. HLE represents for Peugeot a new generation of tubes, and reaffirms our position as a leader in frame technology. Together with a patented Internal Brazing system, Peugeot builds frames at the top of their class in performance and reliability.

HLE is a "Micro-Alloyed Steel", which means simply that other metals were added to the steel during production to give it special properties. It is composed of Manganese, Niobium, Aluminum, Carbon, and Titanium, which combine to create a lighter, yet stronger frame. These elements are more commonly found in the production of aeronautical steel. Introduction of these elements results in a steel frame with mechanical properties dramatically better than conventional steel.

Compared to conventional tubes, the HLE tube has a smaller diameter, but ensures an equal resistance. The strength to weight ratio of HLE tubing is therefore far superior to that of conventional

tubing. In practical terms, this is translated to a saving of more than seven ounces in the weight of the frame.

To complement these lightweight frames, Peugeot engineers developed a low heat brazing technique that preserves the mechanical properties of the tubing, and provides an exceptional compromise between weight and strength. The Internal Brazing process for lugless frames produces seams that are virtually inseparable. Unlike other manufacturers who simply press cut their tubes, Peugeot uses a milling machine to miter the ends of the tubing to exact tolerances. Finally, after the tubing is prepared, it is fitted precisely on a jig and Internally Brazed. The neatly brazed joint is formed by "capillarity", where the metal flows both inside and outside the tube to form a fused joint that is strong and almost invisible. This process allows the tubing to be carefully joined without requiring the added support and weight of lugs. The result is a bike with a clean finish, superior strength, and an incredibly low weight.

Reynolds 531 Frame

You say you have a taste only for the best? Look no further. It starts with the frame, Reynolds "531" MTB tubing with forged drop-outs, double water bottle braze-ons
and continues with the component group, the Deore XT-II package featuring a 21 speed transmission. Rigid ATB rims, Tange headset, alloy bars, stem and seatpost are crowned with a Brooks sprung leather saddle that simply states "first class". You've seen the rest, now ride the best!

Crank

Handlebar

Peugeot's chro-moly tubing gives this bike its superior strength and handling characteristics. The excellent Suntour XCD group includes the 21 speed transmission and powerful brakes. The Araya RX7 black rims with Farmer John and Farmer John's Cousin tires provide the unusual traction to conquer any terrain - from potholes in the pavement to logs on the dirt trail. The great qualities of this bike are simply too numerous to mention!

ALPINE EXPRESS

Brake with Fork

Crank

Finally, a value-packed ATB built with critically acclaimed Reynolds' "501" tubing. This high quality frame is home for Shimano Exage brakes and drive train components. The rolling stock consists of Mavic Oxygen rims and Maillard Diablo QR hubs with Hutchinson "tractor" tires. One thing is for sure, this bike is serious about getting you anyplace in style.

FRAME:	Reynolds 501 Chromoly internally brazed double water bottle brazons	RIMS:	Mavic Oxygen- black 26 x 1.75

ORIENT EXPRESS

Crank

Most ATBs come with "compromise" parts. Not Peugeot! Take a look at the wheels - built with stainless steel spokes, alloy sealed QR hubs, and Araya 7X rims. How about putting Ritchey Force Duro tires on those wheels? And don't forget about the Vetta Gel ATB saddle and the Suntour XCE Accushift component group... The list just goes on and on.

FRAME:	Peugeot full Chro-moly double butted forged vertical drop-outs, double water bottle braze-ons	RIMS:	Araya 7X alloy 26 x 1.75 black

HUBS:	Small flange, 36H, black, QR front		

Did you ever wonder why many bicycle companies skip on the quality construction of their "kids" bikes? After all, who rides the hardest and tests their bikes the most? At Peugeot, we realize that quality is every bit as important for kids as it is for adults. The 24" wheel US Express is simply a smaller version of the full-sized Express, complete with the Suntour Accushift "click-shifting" transmission.

PARIS EXPRESS

FRAME:	Peugeot Hi-Tensile steel, ATB frame, couple bottle braze-ons	RIMS:	Weinmann alloy, 26 x 1.50

This attractive ATB is at home on dirt trails or on blacktop! Its strong Hi-Tensile steel frame provides a worthy home for components like a Shimano SIS derailleur, Lee Chi alloy side-pull brakes and Cheng Shin tires. Available in the smaller 16" frame size so everyone, small or tall, can enjoy Peugeot quality.

ROUND-A-BOUT

Frame Folds To 30" x 32"

The versatility of our folding bike is almost beyond belief! A hi-carbon steel frame with an integral spring clamp rear carrier makes the Round-A-Bout strong and able to carry various packages. It's at home in the campground or on the city streets. When you're finished riding, a flick of its quick release levers will fold it into a small, compact package for storage in a closet, automobile trunk, on the yacht, or in the private plane!

FRAME:	Hi Carbon steel folding frame, with integral rear spring carrier	CHAIN:	1/2" x 1/8", black

PIPELINE PLUS 6

Rear Derailleur

Fat tire comfort and easy Suntour "click-shifting" combine forces for the ultimate beach cruiser. Alloy rims, alloy hubs, one-piece crank with alloy sprocket and a composite aluminum alloy/steel stem keep the weight under control, while the clear coated chro-moly diamond frame has enough guts to conquer flat sandy beaches, battle the city traffic, or cruise the rolling hills.

HUBS: JY 414 small flange C.P. front, coaster rear	

A limo-like ride without the price! This luxury cruiser has a practical side too: an argon-welded frame, painted and clear coated for a chip-resistant finish, as well as clear coated rims and spokes for a rust-resistant life. Stopping power is provided by a Shimano or Suntour coasterbrake, while comfort is enhanced by a wide cruiser saddle with springs. Your sure grip on the road comes from 26 x 2.125" white wall tires. A classy machine for the beach or the road!

Choosing Your Peugeot

The Right Peugeot For You

The Ultimate Cycling Machine comes in a variety of shapes and colors. Which one is right for you? If you have no idea, consider first the area where you will be riding... city streets, mountain trails, or suburban neighborhoods. Consider the amount of riding you will be doing; whether you'll be touring the neighborhood on weekends, or traveling the country for months. Consider also how important the components are to you; whether your decision will be based on the color of the decal, or the name on the derailleur. Your decision may be based on price, components, need, or style. When you're ready to buy, visit your Authorized Peugeot Dealer, and try one on for size...

Fit To Be Tried

Your Peugeot Dealer can help you find the size that's right for you. An approximate formula for a 27" wheeled bike:

[Your Inseam - 10" = Your Size]

can give you an idea, but it's always best to consult your dealer while you're in the shop. Mountain bike sizes may run as small as:

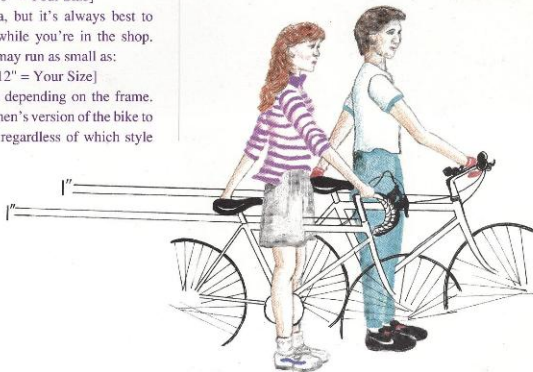

[Your Inseam - 12" = Your Size]

though this will vary depending on the frame. Women should try a men's version of the bike to determine their size, regardless of which style

they are buying. You should have at least 1" of clearance over the top tube for a proper fit on a road bike, but more for a mountain bike.

On The Road Again

Once you've purchased your new Peugeot, register your bike with the local police, and have it engraved with an identification number if possible. Be aware of special laws regarding cycling in your area, and follow all traffic regulations. Your bicycle should be ridden with the same caution you use while driving. Buy a sturdy lock for your bike; no lock will cost as much as replacing a stolen bike. Our Challenge U-Bar lock, with its \$1000 guarantee is a good place to start. Above all, protect yourself! Wear a bicycle helmet while riding, and keep your bike in good repair. Your Authorized Peugeot Dealer can service your bike on a regular basis, while a Challenge Tool Kit can provide you with temporary help for on the road repairs. Now go out and have some fun!

JUBILEE

Some companies take their children's bikes and make them bigger for boys and girls. Peugeot takes a full-size adult bike and properly scales it down to size for the younger rider. Some of the features are: Shimano SIS "click-shifting" derailleurs, alloy stem, aluminum alloy side-pull brakes, high pressure Cheng Shin tires, and steel racing bars with black foam grips. Peugeot quality for the smaller person!

FRAME:	Peugeot Hi-tensile steel with water bottle braze-ons - girl's torpede frame	RIMS:	Steel 24 x 1 3/8, 36H 14G UCP

L'IL RIDER

This popular child's bike is convertible to a boy's or girl's style frame. Built with "kid proof" tough steel, this is the bike a child can learn on. The wheels have more than the average number of spokes for increased strength and durability. Full ball bearings in the pedals, wheels and headset mean easy riding; while the Shimano coaster brake allows quick, powerful, and safe stopping. Streamers are included!

ACCESSORIES

Cycles Peugeot is much more than the manufacturer of quality bicycles! Your local Peugeot Dealer carries a complete line of Peugeot, Velotech, and Challenge parts and accessories. Dress to win, and equip yourself with top quality accessories for your touring, racing or mountain biking needs.

Peugeot Water Bottles:

Treat yourself like a professional, and ride with the water bottle that bears the famous Peugeot name. Available in two sizes - large or small - with or without holder.

Challenge U-Bar Locks:

This sturdy lock offers the best protection you can have for your bike - a limited money-back guarantee!

Cycling Caps & Headbands:

These caps, with the classic Peugeot checkerboard and logo are stylish and functional, while the blue and white terry headbands help you keep a "cool head" in the hot sun.

Challenge Tools:

We have tools for major service and overhaul, or just carry along kits for those unexpected roadside delays.

Gloves:

Help absorb road shock to prevent numbing of the hands during long rides, and provide hand protection if you should fall.

Peugeot Shirts:

Available in two styles: the classic polo shirt in grey, or the double-sided "Parlez-Vous Peugeot" t-shirt with checkerboard back.

LIMITED LIFETIME WARRANTY

Subject to the Conditions and Limitations set forth below, CYCLES PEUGEOT USA, INC., 555 Gotham Parkway, Carlstadt, NJ 07072, warrants to the original owner thereof every new Peugeot bicycle, including all parts and accessories (except tires, tubes, light bulbs, and lenses) furnished with it as original equipment by the factory, supplied by CYCLES PEUGEOT USA, INC. and purchased from an Authorized Peugeot Bicycle Dealer to be free from defects in materials or workmanship under normal use for so long as it is owned by the original owner.

CYCLES PEUGEOT USA, INC., will repair or replace any part covered by the above warranty which becomes defective, malfunctions, or otherwise fails to conform with the warranty at no charge for parts. In order to obtain warranty service, the bicycle, together with the bill of sale or other dated proof of purchase document identifying the bicycle by frame number, must be presented to an Authorized Peugeot Bicycle Dealer in the United States. TRANSPORTATION COSTS AND DEALER'S LABOR CHARGES ARE NOT COVERED BY THIS WARRANTY. The names and addresses of Authorized Peugeot Bicycle Dealers are listed in telephone directories or may be obtained by writing to CYCLES PEUGEOT USA, INC. IMPORTANT: In order to validate this warranty, the Warranty Registration Card must be completed and returned to CYCLES PEUGEOT USA, INC.

This warranty does not cover normal wear or defects, malfunctions or failures which are the results of misuse (including stunt riding, bicycle motocross, dirt biking, or similar activities), neglect, abuse, alteration, modification, use of or with unsuitable parts or accessories, or accident.

All implied warranties, including the warranties of merchantability and fitness for a particular purpose shall be limited in duration to the period of time set for the above express warranty. CYCLES PEUGEOT USA, INC. shall not be responsible for incidental or consequential damages. Some states do not allow limitations or exclusions of implied warranties, incidental or consequential damages, so the above limitations or exclusions may not apply to you. This warranty gives you specific rights, which vary from state to state. This is the only warranty applicable to Peugeot Bicycles: CYCLES PEUGEOT USA, INC. neither assumes nor authorizes anyone to assume for it any other express warranty.

Bicycle Specifications are subject to change without notice.

All Peugeot Bicycles meet C.P.S.C. regulations.

Cycles Peugeot USA, Inc. recommends wearing a bicycle helmet for safety.
